Contest Director: MEL GIFIS

PRESIDENT'S MESSAGE

Hi, everyone. I don't have too much to say this month. The field has been cleared since our torrential rainstorm and we are once again open for business.

There are some really good items of news in this newsletter as well as an updated roster. Don't be surprised if you notice a lot of new names -- we gained more new members than old ones we lost.

I, of course, am sorry to see anyone choose to leave our club, but if they are not satisfied with the efforts we are making to improve both our club and our field, then we must regretably say good-bye.

I say welcome to all our new members and welcome back to our regulars -- and good luck to all.

Phil Mosko

CLUB MEETING FEBRUARY 22, 1983

Meeting called to order at 7:40 p.m. with Marty Mallow heading the Pledge of Allegiance. Marty announced that Keith Smith of Pacific Gliders expressed an interest in addressing the Flyers if the membership indicated it was interested. A hand vote disclosed great interest.

Hats, jackets and T-shirts have been ordered and will be available at the next meeting.

Ken Turner announced that a special "show" team would be supported by the A.M.A. if one could be gotten together. No interest was expressed here. We now have an official instructor's program headed up by Larry Laulom. Instructors must display a proficiency in flying and be willing to donate a couple of hours per month for teaching on an appointment basis.

Larry has an upcoming Quickie 500 race (March 6) which he is going to CD. He needs help.

Ken Tyler announced that club patches were now available to new members who have not received them.

Marv Zauss announced he needs help at the snack bar. Make no mistake, the snack bar has contributed a lot of dollars to the club, so helping out there is really helping the club more than you might think. We have a Formula I race coming up (March 19-20) with Mel Gifis as CD. Marty Mallow will be CD (His first try) in the upcoming Fun Fly in April.

Remember the arm-pwered contest to be held at the meeting in March. The date for our 1983 Cristmas dinner is now set for December 15th at the Valley Hilton. How about that for planning ahead?

Show and Tell was represented with entries by Marty Mallow, Tristan Hamlett, Otto Meier, Jim Bullock, Dick Burns, Jay Replogle, and Tony Maclane. The winners were Jim Bullock for a great "Stuka" and Dick Burns for his "Super Sportster".

Goof Bowl nominations were Ken Turner for ripping off the tail of his airplane during the taxi race at the last Fun Fly, Bob Neithart for "streaking", (hopefully not at the field while flying), and Ralph Council for flying with loose tail feathers. The winner was Ken Turner.

Joe Zingali of JZ Products (Zinger props) made a great and well-received presentation on propellors. Questions and answers were fast and furious. Joe brought goodies for our raffle. The faffle closed up the meeting with the big winners Bob Adams, Marv Zauss, Fortino Hendricks, George Romaine, Art Morgenstern, Jess Carta, Bob Loftin, Eric Burch, Bud Smith, and then I lost count.

Meeting adjourned at 9:40p.m. followed by movies shown by Bob Adams taken at the last Fun Fly.

BOARD MEETING MARCH 8, 1983

Phil Mosko called the meeting to order at 7:45 P.M. Phil gave a report on the field and the great flood of 1983. We understand that the field was inundated with over 20 feet of water.

Mel Gifis moved that the club allocate money for field cleanup. The motion was seconded and passed - the access road will be the target, with the cost not to exceed \$200.00. For special services rendered, Gene Stanton was voted \$50.00. Gene was evacuated by helicopter from the site.

Bob Neithart, CD of the upcoming Pattern contest, expects about 50 contestants. He certainly will need help.

Ken Tyler made a motion which was seconded and passed whereby the period of time from April 1 through August 1 will be designated as the contest for our membership drive. The member who brings in the most new members during that span of time will receive a \$100.00 gift certificate. See the flyer further on in this newsletter.

Mel Gifis suggested we cancel the Fun Fly scheduled for April 17th and replace it with the Quickie 500 which was rained out. This was agreed to and the sign at the field has been changed to advise all flyers.

Marv Zauss was awarded a free membership because of his untiring effort on behalf of the club.

The meeting adjourned at 10:00 P.M.

SECRETARY'S CORNER

Fellow & Lady members - - - help is being offered to solve your hobby problems. . . but no one is taking advantage of this offer. Am I the only one who needs help?

Marty Mallow

Rain , rain go away !!!!! As you know by now,our Quickie 500 race had to be cancelled due to the field being closed. This is the first event that I can recall having to be called. Lets hope and pray for better weather for our upcoming events.

For those of you who were not at the February meeting, the club now has an official "Chief Instructor" in Larry Iaulom. Larrys job is to set up the instruction program and qualify instrutors. He wil not, repeat not, be giving instruction himself, so don't go bugging him to learn how to fly. However if you feel qualified to be an instructor please call on Larry and he will check you out. So far Terrible Tony MacLane and Dr. D Ralph Rosen have been qualified as instructors. Since instruction will be on an " appointment only " basis, and if you are in need of help, call Tony or Ralph and set up an appointment with them.

Anyone interested in forming an A.M.A. Show Team? If so, please call Phil Mosko or Ken Turner and they will give you all the details. We need between six and twelve pilots to make up the team. One of the team will be the manager and one a public address announcer, so if you have any special talents in these areas, please become involved. Incidentally the A.M.A. and the hobby industy will be giving considerable support in the way of kits, equipment, etc.

Our raffle for March will consist of four of the new three bladed props, a count down flite timer, a Monocote trim seal iron and a grand prize consisting of a K&B 40 engine, a Great Planes RCM 40 trainer and also a four channel J.R. radio. So come out to the meeting and buy lots of tickets and maybe you will win a complete engine, radio and plane set.

We will need help for the Formula One race to be held the Sat. and Sun. before the March Meeting. So if you can spare an hour or two, give Mel Gifis a call and volenteer your services.

Helpful Hint :- About a year and a half ago , Jerry Swartz from Pactra distributed samples of a new experimental filler/primer called Pactra Prep. Well I never had the courage to try it on one of my new planes. I finally tried it on a new flite box made of plywood. IT works great!! One coat just about filled all the plywood grain, it dries fast. and sands better than K&B epoxy primer. I painted over it with K&B epoxy paint and there absolutely no problems. Im convinced!!! Im going to try it on my next plane, which will be covered with super coverite and will let you know the results.

At the last meeting, we had a session scheduled for those who needed help with problems. Well I guess no one has any problems, because no one showed up. We will try one more time. After the March meeting is over ( approx.9:30 pm ) anyone with problems is encouraged to stick around and we will try to help. Thats all for this month - good flying.

*Ken Turner*

CONSIDERING THE CONDITION OF THE FIELD AND THE NEED FOR FUNDS, WE SHOULD ALL PITCH IN AND TRY TO GET NEW MEMBERS FOR THE CLUB. REMEMBER WE WILL GET OUT OF THE FIELD WHAT WE PUT INTO IT. THERE WILL BE NO HELP FROM THE GOVERNMENT.

OUR APPLICATION FOR A FEDERAL TAX EXEMPTION FOR THE VALLEY FLYERS FOUNDATION IS ON FILE WITH THE IRS. WE EXPECT TO GET AN EXEMPTION AND THAT WILL HELP, BUT IN THE MEANTIME WE NEED YOUR PERSONAL PARTICIPATION IN ALL THE CLUB ACTIVITIES.

RESPECTFULLY SUBMITTED

KEN TYLER, TREASURER

## SHOW TEAM

At the February meeting, Ken Turner brought up that the A.M.A. has given us the opportunity to start a Show Team. Little interest was shown at the meeting, and the Board discuss the idea that possibly the very title is frightening to some members who are capable of joining this group.

After reading the documents presented, I'm going to try to put some minds at rest and, hopefully, encourage more members to want to participate.

First of all, the whole idea of the team is to help eliminate the "toy airplane" image we have with the general public. The way I read it, most of the "stunts" performed by the team can be accurately done by any pilot who has been flying solo for approximately six months. The following is a list of the things mentioned in the information the A.M.A. sent:

1. Demonstration of controls (elevator, rudder, aileron, throttle, etc)
2. Simple maneuvers (figure 8, rolls, Immelmann, etc.)
3. A powered sailplane (showing the ability to float)
4. Aerobatic demonstration (bi-plane or pattern ship doing 4 or 8 point rolls, etc.)
5. A dog fight (between Attackers or Ugly Sticks)

There are, of course, some specialized stunts that only a truly skilled pilot can perform, but the first three items can easily be performed by over half our members; the last two could be performed by at least 10 that I know of.

Another thing that may have been discouraging is the mention of the amount of time involved. The documents state "a lot of dedication is involved". This is definitely true. The Board feels that if highly technical maneuvers are to be performed the pilot should be able to practice every weekend. The documents give the following explanation: "Those whose family or job responsibilities take them out of town during practice sessions or shows, as well as modelers who regularly fly the contest circuit should not be included on the team."

Now let's go on to the balance of the team. If there are four pilots, there must be a "team manager and an announcer". The team manager would be in charge of the following:

1. Organization - recruitment & selection of members, assigning building projects, setting up practice sessions & shows
2. Correspondence - reports to AMA, membership lists, show reports, uniform requests, equipment orders, publicity materials, etc.
3. Finances - establishing expense charges for sponsors, quoting, billing, and collecting money, etc.
4. Planning - choreographing each show, scheduling people to appear, etc.
5. Safety - review sites for adequacy of space, location of flight line, crowd control, etc.
6. Publicity - meeting with prospective show sponsors, providing materials for radio, TV, newspapers, etc.
7. Show Participation - setting up technical apparatus, props, etc.
8. Equipment ordering - maintaining adequate supplies of fuel, props, etc.
9. Special effects & Sound systems - oversees the selection and production of materials for tapes, etc. used with the show scenario.

10. Trip planning - if a trip of more than one day is indicated, manager arranges for housing, meals, special transportation, etc.

The team announcer is the team's mouthpiece; the one who tells the public what the team is all about and what modeling is all about (the prime reason for the team's existence). He need not be a 'comic' but must be a quick thinker. He should have the ability to ad-lib when necessary. (Almost all of you have that ability). He need not be a great flyer, but should be well informed on all facets of aeromodeling and be able to deliver his commentary in terminology the general public will understand.

It is extremely important that the announcer describe what is happening accurately, and that he explains the mechanics of the aircraft to promote a favorable impression of the sport/hobby of aeromodeling.

An important item the A.M.A. seems to skim over in their documentation is the need for volunteers, helpers, etc. This group includes pit crews, assistance, and the usual people we use at a race. The Board feels that we would need a "one'on'one" helper for each pilot in addition to the others. This gives nearly everyone in the club the opportunity to join in and be part of this Show Team!

Team Members are described by the A.M.A. should meet the following:

1. Have the ability to work well with others
2. Possess good sportsmanship qualities
3. Have a pleasant personality
4. Reflect loyalty in past commitments
5. Have proficiency in the area for which he/she is being selected
6. Reflect perseverance
7. Have family support and understanding of the time he/she must put forth
8. Have past contributions to local club efforts
9. Have the willingness to forego contests to appear in shows

I sincerely hope this has enlightened you and helped to ease any doubts you may have had about your ability to become part of the Show Team. Now that 99% of you have realized that you are qualified for the team let's see some spirit and talk to someone on the Board about getting "our" show going.

Don't forget that we will have a workshop for members having trouble building after the meeting (app. 9:30). The meeting is March 22, 1983 at 8:00 P.M. at the Encino Community Center.

ENTERTAINMENT AND EVENTS

Our Forth Annual Arm Powered Contest will be taking up most of the evening so there will be NO Show and Tell this month.

As you probably know the Quickie 500 scheduled for March 10th. was cancelled due to the weather. The race has been re-scheduled for April 10th. and the Fun Fly scheduled for April 17th. has been cancelled.

See you all at the meeting on the 22nd..

BE PROMPT 7:30 P.M..

WORK SHOP SEMINAR

I would like to see a demonstration on how:

\_\_\_\_\_ at the work shop seminar.

I WOULD PREFER THE WORK SHOP SEMINARS

1. Before the meeting
2. After the meeting

I WOULD LIKE TO VOLUNTEER MY EXPERTISE ON

\_\_\_\_\_ at the work shop seminar.

## FORTH ANNUAL THREE VIEW ARM POWERED PLANE CONTEST

Here are the rules:

- (1) Build a "dime glider" type model of any airplane published in a magazine, book, or whatever by tracing the fuselage onto  $\frac{1}{4}$ " balsa-----wings and tail feathers on  $\frac{1}{16}$ ". Cut out and finish in your favorite way or leave unfinished for flyability.
- (2) Bring the 3 - view for proof of scale. No plane will be eligible without it.

Planes will be judged on looks and accuracy to the 3 - view.

### EVENTS:

DURATION - (by elimination) or last to hit the ground.

SPEED - (by elimination) or first to cross finish line.

DISTANCE - (by elimination) measured in a straight line.

TROPHIES or RIBBONS thru third place. Additional PRIZES for BEST model, BEST finish, and MOST UNUSUAL will be awarded. Each Plane must prove it can fly.

Mel Gifis  
Entertainment/Contest Director
