I wanted to thank all the volunteers for their hard work. The weather for the Western E-Fly was perfect both on Saturday and Sunday. There was some over cast on Saturday but overall the weather was perfect. This was one of the most successful events we have held. We had close to 72 pilots and half dozen supporting Manufacturers. JUNE MEETING – INDOOR PARK FLYING

Just a reminder that the standard events will be the Carrier (number of landings on the table

in a two minute time period) for fixed wing (both Vapor and Ember together) and pylon racing for the co-axial heli's.

If time permits we plan on having VAPORS race against each other and EMBERS race against each other in separate pylon classes. ONE more addition will be the OPEN class in pylon (non VAPOR/EMBER) racing against each. The OPEN class is still restricted to INDOOR PARK FLYERS and battery capacity is limited to 1S and not over 300 mah.

Please bring your 2013 VF club membership or 2013 AMA card. Please don't come up to the desk without either one!

Participants need to prove they have insurance in this AMA sanctioned event.

To recap the events;

CARRIER EVENT (VAPOR AND EMBERS TOGETHER)

PYLON EVENT CO-AXIAL HELIS

PYLON EVENT VAPORS ONLY

PYLON EVENT EMBERS ONLY

This last Memorial weekend I had to visit my cousin in Palm Springs. She was visiting from England, and I was going to spend four days in the 100 plus heat.

As most of you know there is not much happening in that part of the desert unless you play golf, or like to eat out a lot. So It was a pleasant surprise for me to find this little gem situated on the far side of the Palm Springs airport, and in the midst of all the golf courses.

As you enter the building, there is a well laid out store, selling all kinds of aeronautical trinkets, and gifts.

As you continue through the gift shop you enter the hangers that contain some tasty well restored aircraft.

As well as the obligatory P-51 Mustang, P 40, and F4 Phantom, there are some nice surprises. They have a beautiful Gruman F7f Tigercat, a late model Spitfire, PBV Catalina, a couple of P 47 Thunderbolts, P 63 Kingco-

bra and even a Mig 29.

In all there are more than 29 great examples of great aircraft to walk around and touch.

They also have many nice static

exhibits, and some outstanding aviation art. I found out that the great aviation artist Stan Stokes, is on the board of directors of the museum, and there are many great examples of his work here.

On the day we were there we were treated to a superb flying display by the Kingcobra and B-25.

In fact on the last flyby of the day, the B-25 came by low and slow, opened its bomb doors, and dropped thousands of red and white carnations on the crowd, it was spectacular!! So if your in the Palm Springs area, with a few hours to spare, go and visit the museum, you will be glad you did.

3. Open flying is restricted during scheduled events.
4. No take offs and landings from the pit area, taxiways, or grass.
5. 400 feet maximum flying altitude.
6. Take-off and landings to be in the same direction according to the wind.
