PROPOSED CHANGE TO BY LAWS

The following is being proposed as a change to the Valley Flyers bylaws. The changes/additions are underlined in italics. A show of hands to approve will be requested at the next October general meeting.

SECTION V VOTING.

All matters submitted for vote at a meeting of the members shall require an affirmative vote of greater than fifty percent of the members in attendance. Voting may be oral or by a show of hands except that in the election of the board, where voting shall be by secret ballot.

The secret ballot policy will apply when more than one nominee is being considered for any board position; otherwise a show of hands is sufficient with the majority rules as the policy.

Only current year Valley Flyer members shall be given a ballot or choice to vote. The current year status of the member must be verified by the most recent roster. If they are not on the roster for the current year, they will not be given a ballot, unless they can produce a current year membership card. Members joining or renewing with the club on the night of the balloting will not be allowed to vote. The roster can be provided by any current board of directors.

Sincerely, The Valley Flyer's Board

RESERVE NOW FOR HOLIDAY DINNER - DEC 14

It's that time of year and we're coming up on the annual Valley Flyers Holiday Dinner. It's on Sat Dec 14 starting at 6PM this year. And Hospitality Director Dan Ziliak has organized a new location. This is an excellent, privately owned and operated Italian eatery in North Hollywood.

Victorios Italian Restaurant
10901 Victory Blvd.
North Hollywood,
CA 91606

[Here's the Google Map link for Victorios.](#) Victorios is located on Victory Blvd. – just east of Vineland Ave... on the northwest corner of Victory Blvd. and Cleon Ave. There's plenty of free parking. Dan has selected roast beef (roasted right there on the

premises) and blackened salmon as the menu choices. There'll also be vegetarian options. The per person price – including non-alcohol beverages – will be just \$25. And that INCLUDES the tip. Please state your choice when making reservations (details below).

In addition – we're resuming the popular GIFT EXCHANGE this year. Please bring a wrapped gift (under \$25 please) marked HIS, HERS or THEIRS. Those will be placed on a table and during the program each person who brought a gift will be invited up to take another. These gifts can be RC aircraft related – or have nothing to do with our hobby.

We are starting to take dinner orders... and your early order helps us plan. You can purchase your dinner reservation at

tomorrow night's (Tue Oct 22) club meeting or at the November meeting (Tue Nov 26). Cash or check only please (checks made out to Valley Flyers). Again it's \$25 per person.

As an alternative, you can mail your check directly to Treasurer Bob Smith at:

26639 Purple Martin Court
Canyon Country, CA 91351

Again, please provide your menu choice (beef, salmon or vegetarian).

We look forward to seeing you at the Holiday Party. There'll be good fun, awards, photo memories, the gift exchange and, oh yes, very good food. So reserve as soon as you can – and we'll see you at Victorios in North Hollywood at 6PM on Sat Dec 14.

Taylor Thompson, Chuck Thompson and Dave Sweany represented the Valley Flyers at the San Gabriel Valley Radio Control League Race last Saturday. Taylor brought home Fast Time (1:10.23) and Chuck was awarded 3rd Place for the event.

National Model Aviation Day donations surpasses

\$70,000 mark

The following was reprinted from the Model Aviation web-site;

Donations for the inaugural National Model Aviation Day have officially surpassed the \$70,000 mark. This is more than the expected contribution, and AMA leaders are elated to present the money to the Wounded Warrior Project. If your club has not sent in the collected money yet please do so as soon as possible to allow AMA to calculate a grand total.

Thank you Valley Flyers for supporting this effort at our events!

VALLEY OCTOBER FLYER FINANCIALS

Checking account balance:
\$ 2,397.28

Reflects a large check, \$1000 written to Victorio's for holiday dinner deposit

Should recoup from the membership funding the holiday dinner

\$450 expense towards year end prizes

PayPal balance: **\$614.60**
TOTAL FUNDS: \$3011.88

Bob Smith, Treasurer

OCTOBER RAFFLE

AT THE TUESDAY OCTOBER 22ND CLUB MEETING

Night Vapor

Like the original Vapor® aircraft, the Night Vapor™ model is slow enough and light enough to fly in a living room, a basement or even the [conference room](#) at work. To this amazing slow flight performance, it adds the fun of LED lights that allow you to fly in the dark. It also features a new modular design that makes replacement of broken parts quicker and easier. Best of all, you can have the Night Vapor BNF flying in as little time as it takes you to charge its battery and bind it to a DSM2® aircraft transmitter (sold separately)

Please help support your club by purchasing some raffle tickets!

An offer from Canon Cameras

I am trying to help the folks at Canon Camera USA put together an event that showcases the photography and videography aspects of our hobby. The event is tentatively planned for 11/16 from 10am to 3pm at the Canon education center in Hollywood. I'm reaching out to you to ask if you and your club would like to participate in any way shape or form? I'm trying to find parties interested in the topic and want flying sites represented so attendee's know where to go look for further information flying.

The event will be cover basic materials for beginners shooting on small point and shoot all the way up to professional cinematographers. Of course the invitation would go out to your club members as well, and there is no charge to attend the event. If you would be interested in participating, please feel free to reply or give me a call. I can be most easily reached at 323-395-6890. Thank you very much for your time.

All the best,

Robert

Y-FLY 2013

SET UP

Y-FLY 2013: BIG SUCCESS, LOTS OF SMILES - AND PHOTOS!

The Valley Flyers annual Y-Fly/Fun Fly 2013 yesterday attracted about 130 youngsters and their parents - most of them from a YMCA youth group - the Y-Guides and Princesses. We also had a Cub Scout pack and members of a Little League baseball team.

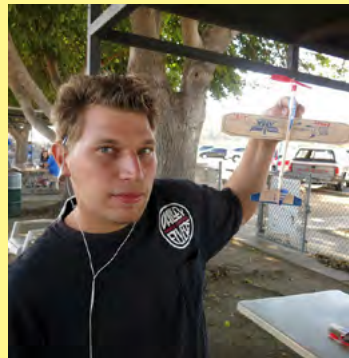

All attended a ground school lesson, built and then flew their own rubber band planes, got some time with the simulators and finally buddy-boxed their first flight with a real RC aircraft (under the capable master control of Valley Flyers pilots). CD Chuck Thompson reports there were about 30 club volunteers on hand – handling chores from setup to food to piloting. Chuck extends warm

thanks to all. We had nine flight simulators set up. Both the parents and the kids gave Y-Fly 2013 high marks.

THE HELPERS

W

Willie Gardener - The Valley Flyers Secret Weapon!

If you have flown at Apollo field, chances are you have taken advantage of a piece of equipment built, or designed by Willie Gardener. Willie, with the help of club volunteers, built just everything at the field.

This includes tables, overhead shades, paths, concrete pads. Even the blue containers at the field were all installed and painted by Willie and friends.

At present time Willie is the team leader for layout and preparation of the new Glendale Field.

Willie originally hails from Denver Colorado, and although he moved around a lot for his job, (Willie was

Willie starting one of his original trainer designs, using one of the engine test stands built by him.

Willie's design for the Marathon contest

The first is his model that he designed, and built from scratch, for a marathon flight contest about six years ago. It features a fiberglass fuselage and foam wings.

trained as a master carpenter) he finally settled in Southern California in 1959. Willie is a young 87 years old. He started building model aircraft at the age of six, (in 1932!) being coached by his uncle.

As you can imagine, he has built a lot of models, and won many awards.

He has two models, shown here, that are close to his heart.

The second model was a quarter scale 'Transavia Skyfarmer' powered by a Super Tigre ST3250.

This is a plane flown as a crop duster in Australia and New Zealand. The plans were from Australia.

It has a ten foot wingspan and flies at about 80 mph and took four years to build.

The aircraft was built from wood and covered with 3/4oz fiberglass cloth, and weighed in at 38lbs.

It won the 'Best Scale Model Trophy' at the annual Giant Scale contest in Las Vegas.

Willie lives in Van Nuys with his wife Leta in the same house for 36 years.

Now retired, Willie has less time than ever.

"Between both my daughters houses and our house, there's plenty of work to be done, and Leta, of course, is after me to do more", says Willie. I never have enough time to work on my own planes! Leta is a patient woman though. You won't find many women that will put up with this hobby".

As it turns out, Leta takes pleasure in Willie's hobby too. Together they enjoy weekend excursions, where

fellow enthusiasts show off their models.

Recently Willie was persuaded to sell his Skyfarmer to a German Industrialist/Model enthusiast.

63 Years of Service

Dear Model Aircraft & Radio Control Enthusiast,

Thank you for your interest in Model Aviation. The San Fernando Valley Radio Control Flyers (SFVRCF) is Academy of Model Aeronautics Charter Club #152, and in 2013 the club will enjoy its 63rd year! Joining the Valley Flyers is a great way to support the hobby while enjoying the rich, educational benefits and camaraderie that Club membership can bring.

The main emphasis of the Club is the promotion of model aviation, to maintain the Apollo 11 field both physically and politically for model aviation, and to promote good fellowship and community relations. With your membership, you support the many Apollo XI field improvements and community relations projects the club is championing.

Benefits of Membership Include:

- Free flight instruction. We use our Club trainer airplanes, radios, and fuel... You provide the enthusiasm!
- Free Annual BBQ & Club-subsidized End-of-Year Holiday Party & Award Presentation & FREE Fun Fly Events.
- Club Meetings including Show-And-Tell, Model-Related Programs & Presentations, and a Monthly Giveaway.
- RC eNews – Timely and informative email messages about upcoming events, field closure notices and more.
- The Valley Flyer – The club's official newsletter.

Please fill out and sign the membership application. Send the application with a check for the membership dues (make check payable to **The Valley Flyers**) to Valley Flyers Membership, PO Box 2055, North Hills, CA 91393. Alternately, you may bring your application to a Club meeting, or sign up using PayPal® at **www.valleyflyers.com** online.

Prospective Members and Guests are always welcome and invited to Club meetings. Your support is greatly appreciated.

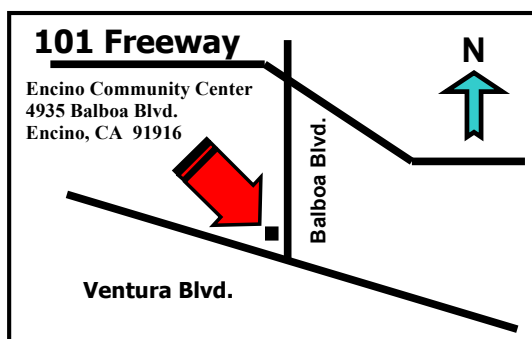

Membership Director
San Fernando Valley Radio Control Flyers
glstevens@verizon.net

Along with your modest annual dues, you need to have a current membership in the **Academy of Model Aeronautics**. If you are not yet an AMA member, you can sign up by calling 765-287-1256 or visiting **www.modelaircraft.org** online.

SFVRCF Club Meetings

Club meetings are held on the 4th Tuesday of each month at 7:30 PM. Refreshments will be available. Please bring a couple of extra dollars for refreshments and raffle tickets if you so desire.

2012 Club Meeting Schedule			
January	24th	July	24th
February	28th	August	28th
March	27th	September	25th
April	24th	October	23rd
May	22nd	November	27th – Annual Workers Raffle
June	26th	December	TBD Holiday Party

The SFVRCF is Academy of Model Aeronautics (AMA) charter club # 152, and as a charter club all members of the SFVRCF must be members in good standing with the AMA. Failure to become an AMA member or to keep your AMA membership current will void your SFVRCF membership. Your AMA membership is verified each year when you renew your club membership. SFVRCF members are expected to abide by club bylaws, Academy of Model Aeronautics rules, Apollo 11 field flying regulations, and normal standards of conduct and courtesy.

Apollo XI Field Flying Regulations

This facility is designed to accommodate four general types of powered remotely controlled aircraft in separate areas of the park.

1. Radio controlled heavier than one pound on the main runway.
2. Radio controlled one pound or less & R/C gliders North of the pit area.
3. Radio controlled helicopters South of the pit area
4. Control line flight in the designated Control line circles

This facility does **NOT** accommodate free flight aircraft, Kites, rocketry of any kind; R/C cars or R/C trucks.

Radio Control Flight Rules

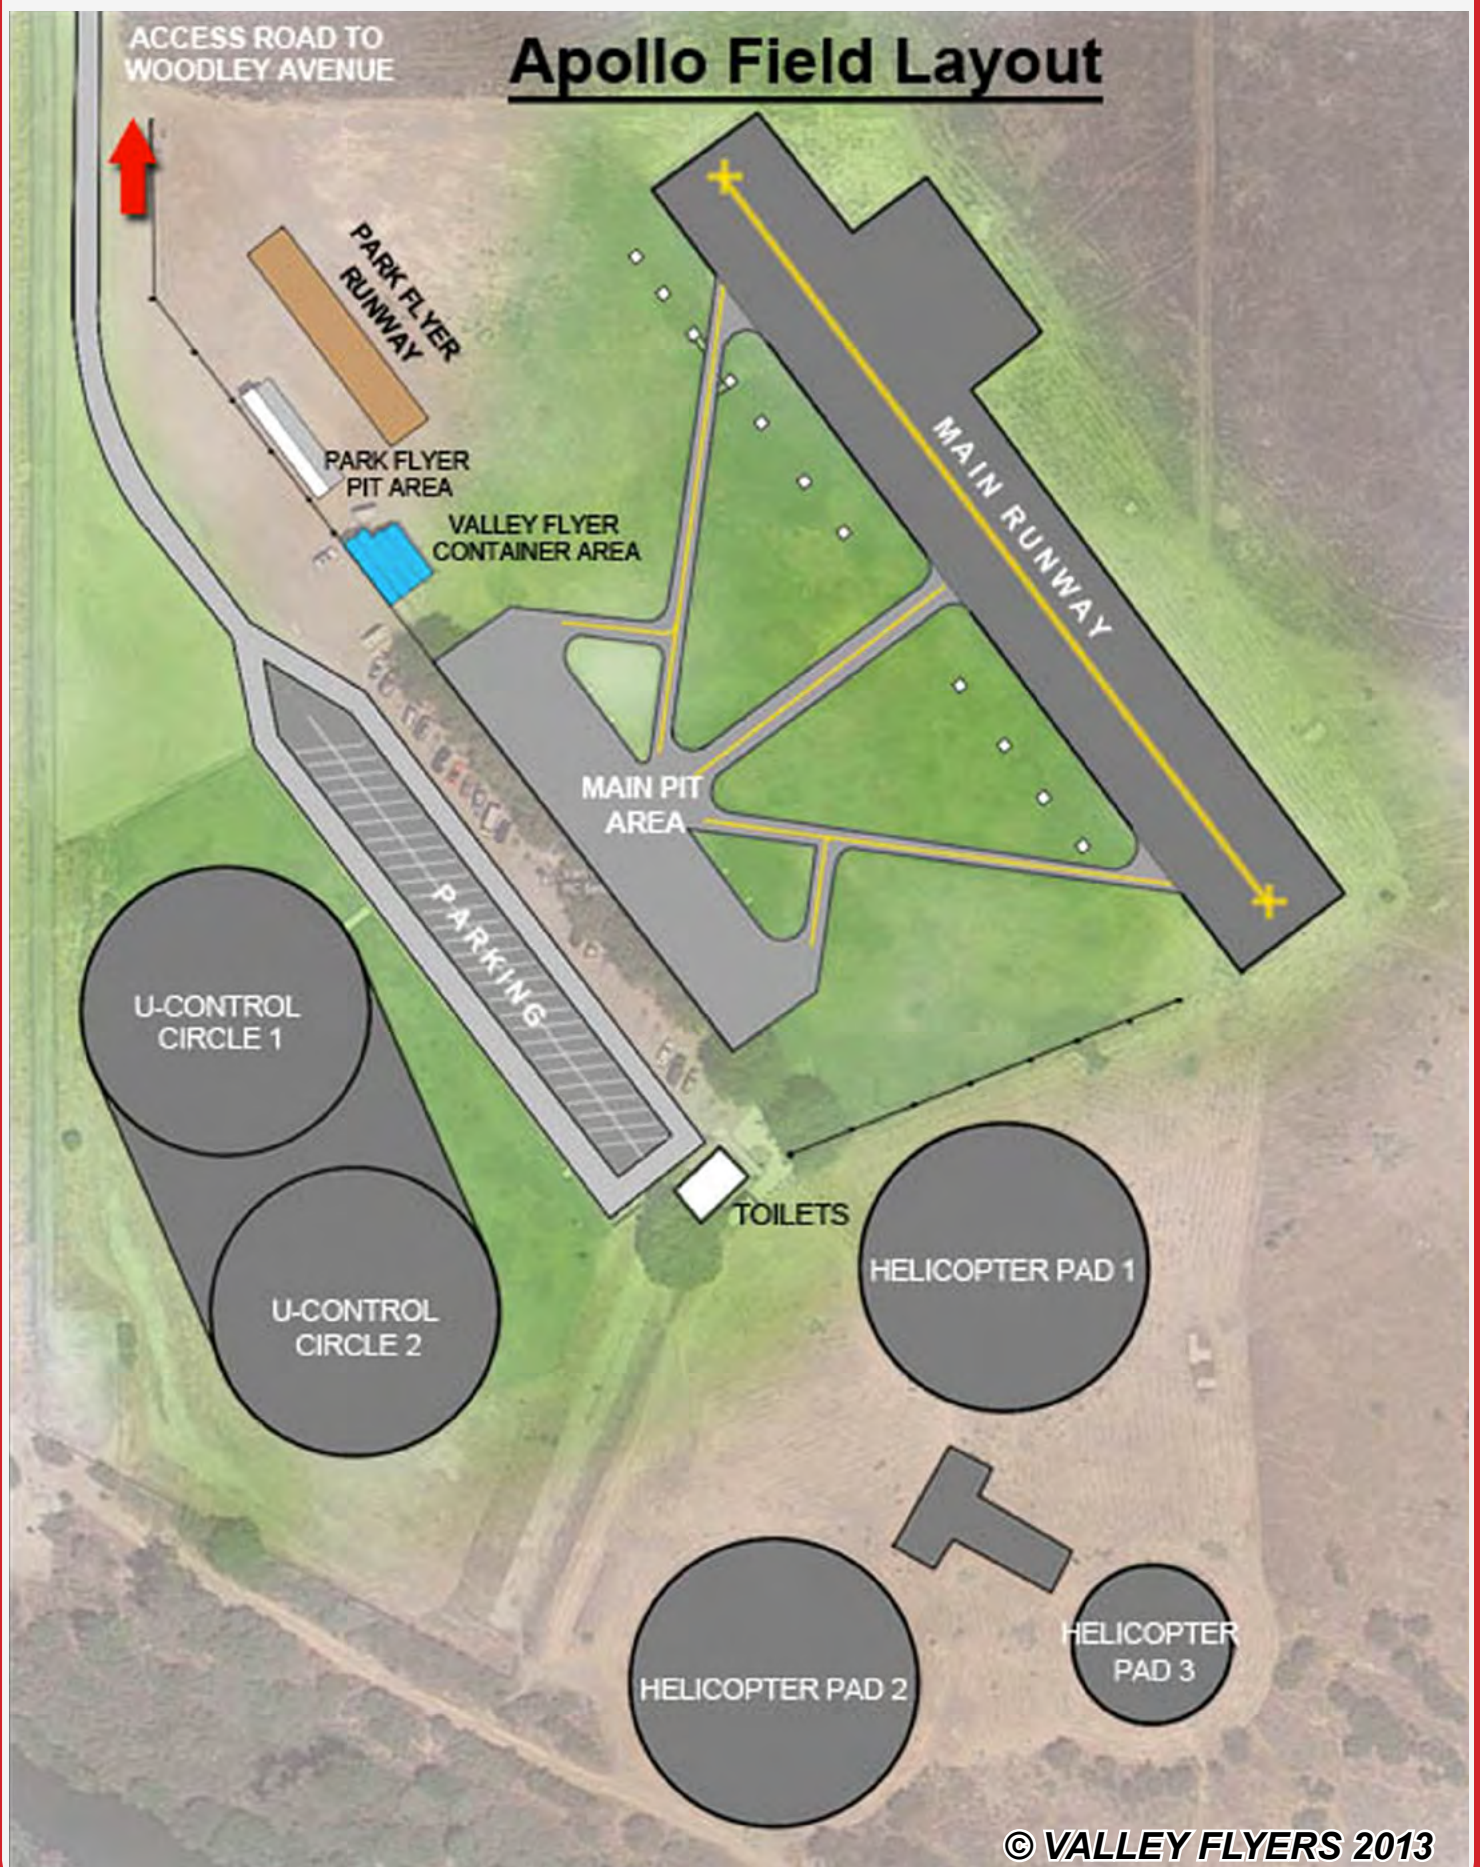

1. All pilots must fly from one of the designated pilot stands.
2. The frequency board will be used at all times and pilots must post their frequency usage with a card or I.D. that contains their name or picture I.D.
3. Open flying is restricted during scheduled events.
4. No take offs and landings from the pit area, taxiways, or grass.
5. 400 feet maximum flying altitude.
6. Take-off and landings to be in the same direction according to the wind.
7. Down-wind passes over the runway are prohibited when other aircraft are flying.
8. Some sort of fuel recovery system must be used when fueling planes to avoid spillage.
9. All pilots will follow taxiways directions as posted.
10. Pilots will call out their intentions (landing, take-off, etc) and clear the runway quickly.
11. There shall be no flying during facility mowing operations
12. Flying over the Golf course, access roads or public roads is prohibited.
13. Each type of aircraft must fly and pit within the area designated on the map for that type of vehicle. Fixed wing aircraft will have a standard left or right pattern depending on the wind.

Failure to comply with these regulations may result in a citation, loss of flying privilege or both.

*****Pilots please note, the Field is closed to open flying during all Valley Flyers Events.***

Pilots must check-in to participate. A valid VF Club membership and/or AMA membership is required.

Become a member, visit www.Valleyflyers.com for more information. 2/2013
