Western States Electric Fly

Tuesday June 24th
VF General Meeting

We would like your feedback. If you have ideas for improving the newsletter, or would like to submit articles/ideas, contact: emayer@pacbell.net. Ted Mayer, Newsletter editor

A Message from our President

Another month has passed and the summer heat is in full swing. I wanted to first thank all of the members that participated in the fun fly. It turned out to be a winner with 75+ pilots participating.

I wanted to also thank **Matt Carroll** for running a first class LA Jets event.

Thanks to the members and the Board of Directors, the club has done quite well. I believe that the membership will receive the benefits of that through some fun activities such as club BBQs or an Aviation museum trip, etc....

Don't forget that the July 22th club meeting is at the Basin. 'Till the next newsletter.

Ahead in June:

Pylon Races

Fri Jun 6, Sat Jun 7, Sun Jun 8
- CD Travis Flynn - flynnracer@aol.com

Western States 2 Day Electric Fun Fly

SAT 21, SUN 22 CD Randy Mytar 818-789-7719 - rmytar@gmail.com

Have a great month of flying and see you at the club meeting.

Benny Elkouby

Club President

ADDENDUM TO RULES AND REGULATIONS

- 1) Fly from the designated flying areas, no taxi way take offs please to prevent low pass collisions.
- 2) Fly on the runway side with the other flyers, to communicate with each other.
- 3) Call your intentions-Taking Off, Landing, **Remember Landings have priority.**
- 4) Fly the pattern everyone else is flying, unless you communicate with each other. The first one out flying dictates direction, or wait till he is finished.
- 5) 3 D stunt flying should be done **off** the runways to avoid mid air collisions.
- 6) Stay within the boundaries as much as possible to avoid mid air collisions.
- 7) Most of all: new pilots at the airfield, If you think you might need help a lot of us are there to assist you, so you don't crash your plane, or crash into some one.
- 8) When working on your planes, make sure some one is helping you, I've seen too many times propeller cuts to the pilot or bystander.

FUTURE MEETING HAPPENINGS

It was discussed at the May board meeting that the Fire Department will host a presentation on their latest helicopter at the June 24th meeting. It was also decided that the August 26th general meeting will feature the CLUB SWAP meet. Ricc Bieber might have more information on this at a later date. The second Indoor Olympics will be held at the September 23rd general meeting. Details to follow soon.

VINTAGE MAGNET SCHOOL MODEL AERONAUTICS DEM- ONSTRATION

This past Friday, May 30th, the Valley Flyers put on their 4th annual model aviation demonstration at this Magnet School in North Hills California.

I'd like to thank all the Valley Flyer members that attended to make this a success;

Ricc Bieber, Mario Sweet, Bob Tarlau (MC and photographer), Tena Aguila, Athena Aguila (CO MC and photographer), Toni Aguila (pilot), Bob Smith, Dave Sweany, Orel Elbaz (pilot) and David Tarlau (pilot).

Tena and Athena have some suggestions that what we perform in the "Y" Fly with young kids, building and coloring rubber band models and flying them, be carried over to this event. We will discuss at the board meetings to incorporate in next year's event, if we are invited back.

Of course the high light of the evening was the flying of various

JUNE RAFFLE

AT THE TUESDAY JUNE 24TH CLUB MEETING

Stinson ARF by Phoenix models

The scheduled give away is AGAIN the Stinson ARF by Phoenix models. It wasn't delivered in time for the May meeting so here it is again for June. For glow or electric setup.

Features

- Compatible with glow or electric setups
- High-wing increases stability
- Bolt-on two-piece wing for easy transport
- Removable canopy for easy radio gear set-ups and LiPo battery changes
- Strong lightweight construction
- Pre-painted pilot figure
- Full assembly hardware

SPECIFICATIONS

Stock Number: PMMA1357

Wingspan: 63.3 in (1608 mm)

Length: 49.2 in (1250 mm)

Weight: 6-7 lb (2.8-3.2 kg)

Requires: 4-channel radio w/5 servos, 2-stroke .46-.55 or 4-stroke .52-.61 engine and fuel

or RimFire™ .46-.55 outrunner brushless motor, 80-100A ESC, 3S-4S 4000-5000mAh LiPo battery & charger

models by the pilots.

We also appreciate the time spent by the other attendees, discussing model aviation, the Valley Flyers as a club and learning to fly!

As usual, the names noted above, will be given credit at the yearend raffle drawing.

Summer is Here!

Well, yes, this is California, and we don't really have seasons (according to folks from other

parts of the country!), but I count any change in the weather as a seasonal thing, even if we have 100° heat in December and 45° cold in April. If you really need that white cold stuff, it's just two hours away. Personally, I'm over snow. It's just too darn cold! As I get older, warmer is better.

If you didn't attend May's Indoor Olympics, you missed some interesting performances by some equally interesting aircraft. The results are as follows:

Ember Class: 1 entry, Dave Sweeny Course time—.58.0

Quad Copter Obstacle Course: Conner Carroll—1st, Winston Brown—2nd, Matt Carroll—3rd. (Yep, beaten by his son!)

Open Pylon 5-Lap Race: Dave Sweeny—1st, Conner Carroll—2nd, Winston Brown—3rd, Tony Aquilla Jr.—4th, and yours truly couldn't get the flying ball to go anywhere!

Vapor Pylon 5-Lap Race: Fastest Time, Dan Ziliak .51.42, 1st—Dave Sweeny, 2nd—Tony Aquilla The Elder, 3rd—Glen Roe the More Elder.

We had a total of 10 Pilots doing their utmost. Fun Night! But don't worry—we have another round in October, so fair warning; get ready starting NOW!

So here's what we have lined up for the June General Meeting: I spoke with LAFD Battalion Chief Peter Benesch of the Van Nuys Airport Fire Brigade, and he has promised us a speaker for our meeting. I don't have any other info at the moment, as I'm waiting for a response from the poor devil he pawned us to, so stay tuned—we will put more info in the E-Blast at the appropriate time.

We just finished NASA Night at Vintage Elementary on Friday the 30th of May, and I'm pretty sure Bob Tarlau has an article about it somewhere in the missive, but just in case.....

We had a great time interacting with the kids and parents, with flying demonstrations, building demonstrations and generally answering questions from the general public. Heck, they even fed and watered us! Next time, we will remember to bring the shade pop-ups! (It was toasty!)

Well, that's about it for this month. Check out the Calendar of Events for upcoming soiree's at the Field. We always need 'officials' to man the battlestations!

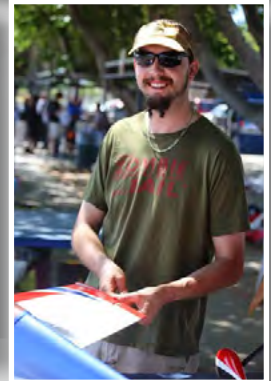

Until next month.

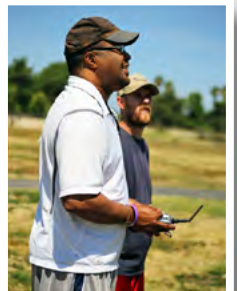

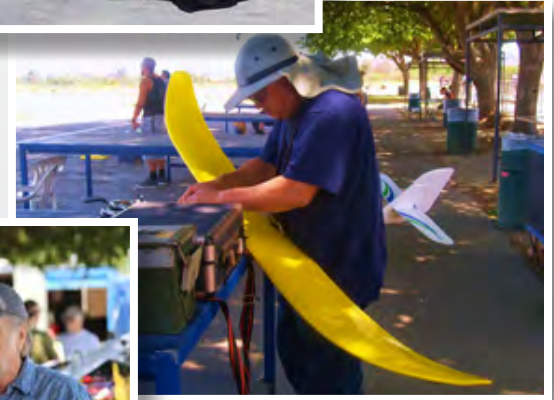

Flaps Up!

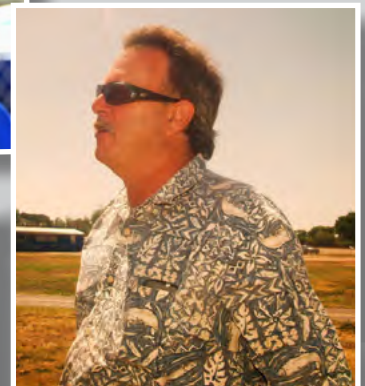

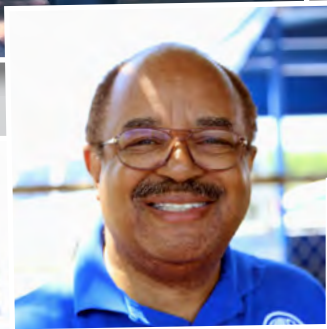

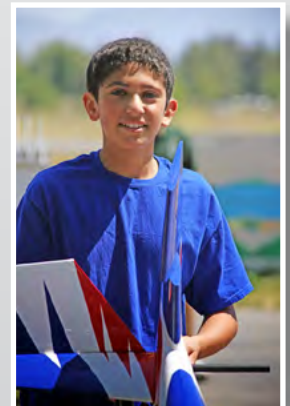

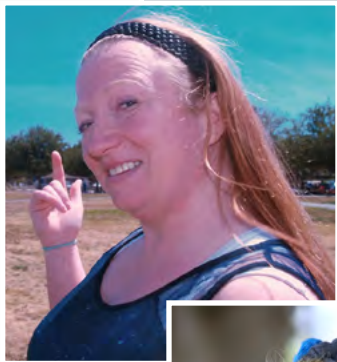

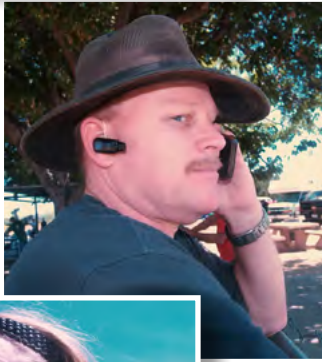

Ricc Bieber
Program Director

APOLLO 11 FIELD'S NEW BULLETIN BOARD

You may have noticed already. We have a new bulletin board/display case at Apollo 11 field. This had been a work in progress for almost a year – after Willie Gardner made note of how much the decades-old previous bulletin board was tilting and shifting – and threatened to topple. Willie drew up detailed plans for the replacement. We had a meeting with Jeremy Thomas of Recreation and Parks. While Willie had offered to build the bulletin board himself – with the club

paying for materials, Jeremy said the city would do that for the club... both build it and pay for most of the materials.

Bob Smith ordered and the club did pay for the glass enclosures which are built into the bulletin

board. Those are lockable glass displays for our memorial “wall” and other permanent displays.

Construction was completed and the sign was installed during April. The footings are in cement this time. You will find photos of

the completed project near this article here in The Valley Flyer.

Big thanks to Jeremy and the Recreation and Parks carpentry shop – which took on this project. Those of us involved in this effort are very pleased with the result. We hope you will be too!

Bob Tarlau

Turbine Column

Thanks very much for the help all of the workers provided. One thing I should note for future ref-

The next event will be on July 19. This is a one day event and again we will be encouraging the EDF guys to participate. We are about 50-50 turbine to EDF and I would like to see that ration

Also, I am in the midst of building a new turbine trainer for my son Conner. I have a lot of build pictures and I will do a build video soon. This is a nice kit, US\$600 includes all of the landing gear, fuel tank, turbine mount, etc. I know a couple of you guys have wanted to possibly try turbines, this is the way to go.

Apollo XI Field

NASA Night at a North Hills elementary school

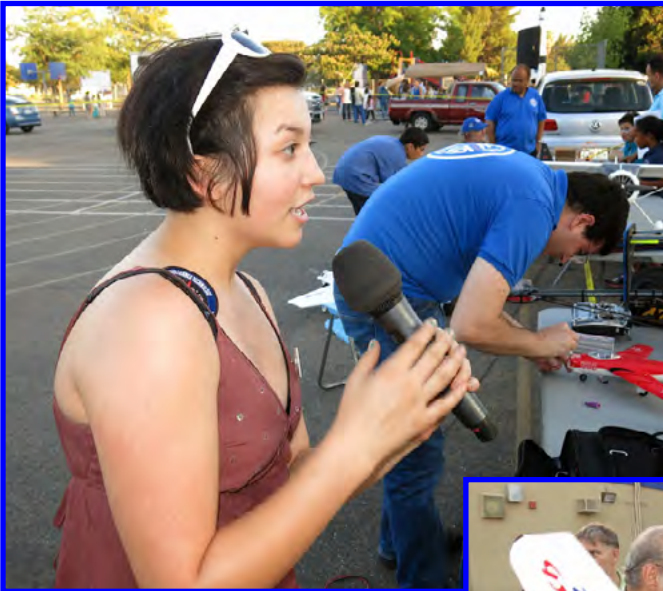

The Valley Flyers has participated in NASA Night at a North Hills elementary school for the fourth straight year. The Vintage Magnet School - which focuses on math and science - has an annual evening, co-sponsored by

NASA. Science and technology groups from throughout the area are invited to attend. The Valley Flyers set up on the school yard where we were given a reasonably large area to fly small planes and even helis up to 600

size. About 10 VF members took part and we had a strong turnout of curious kids and their parents. Thanks to all from the club who gave their time and talents.
- **Bob Tarlau**

64 YEARS OF SERVICE

Dear Model Aircraft & Radio Control Enthusiast,

Thank you for your interest in Model Aviation. The San Fernando Valley Radio Control Flyers (SFVRCF) is Academy of Model Aeronautics Charter Club #152, and in 2014 the club will enjoy its 64th year! Joining the Valley Flyers is a great way to support the hobby while enjoying the rich, educational benefits and camaraderie that Club membership can bring.

The main emphasis of the Club is the promotion of model aviation, to maintain the Apollo XI field both physically and politically for model aviation, and to promote good fellowship and community relations. With your membership, you support the many Apollo XI field improvements and community relations projects the club is championing.

Benefits of Membership Include:

- Free flight instruction. We use our Club trainer airplanes, radios, and fuel... You provide the enthusiasm!
- Free Annual BBQ & Club-subsidized End-of-Year Holiday Party & Award Presentation & FREE Fun Fly Events.
- Club Meetings including Show-And-Tell, Model-Related Programs & Presentations, and a Monthly Raffle.
- RC eNews – Timely and informative email messages about upcoming events, field closure notices and more.
- The Valley Flyer – The club's official newsletter.

Please fill out and sign the membership application. Send the application with a check for the membership dues (make check payable to **The Valley Flyers**) to Valley Flyers Membership, PO Box 2055, North Hills, CA 91393. Alternately, you may bring your application to a Club meeting, or sign up using PayPal® at www.valleyflyers.com online.

Prospective Members and Guests are always welcome and invited to Club meetings. Your support is greatly appreciated.

Barbara Brace, Membership Director
babz2008@gmail.com
 818-310-1874

Along with your modest annual dues, you need to have a current membership in the **Academy of Model Aeronautics**. If you are not yet an AMA member, you can sign up by calling 765-287-1256 or visiting www.modelaircraft.org online.

SFVRCF Club Meetings

Club meetings are held on the 4th Tuesday of each month at 7:30 PM. Refreshments will be available. Please bring a couple of extra dollars for refreshments and raffle tickets if you so desire.

2014 Club Meeting Schedule			
January	28th	July	22 nd
February	25th	August	26 th
March	25th	September	23 rd

June	24 th	December	TBD Holiday Party

The SFVRCF is Academy of Model Aeronautics (AMA) charter club # 152, and as a charter club all members of the SFVRCF must be members in good standing with the AMA. Failure to become an AMA member or to keep your AMA membership current will void your SFVRCF membership. Your AMA membership is verified each year when you renew your club membership. SFVRCF members are expected to abide by club bylaws, Academy of Model Aeronautics rules, Apollo XI field flying regulations, and normal standards of conduct and courtesy.

Apollo XI Field Flying Regulations

This facility is designed to accommodate four general types of powered remotely controlled aircraft in separate areas of the park.

1. Radio controlled heavier than one pound on the main runway.
2. Radio controlled one pound or less & R/C gliders North of the pit area.
3. Radio controlled helicopters South of the pit area
4. Control line flight in the designated Control line circles

This facility does **NOT** accommodate free flight aircraft, Kites, rocketry of any kind:
R/C cars or R/C trucks.

Radio Control Flight Rules

1. All pilots must fly from one of the designated pilot stands.
2. The frequency board will be used at all times and pilots must post their frequency usage with a card or I.D that contains their name or picture I.D.
3. Open flying is restricted during scheduled events.
4. No take offs and landings from the pit area, taxiways, or grass.
5. 400 feet maximum flying altitude.
6. Take-off and landings to be in the same direction according to the wind.
7. Down-wind passes over the runway are prohibited when other aircraft are flying.
8. Some sort of fuel recovery system must be used when fueling planes to avoid spillage.
9. All pilots will follow taxiways directions as posted.
10. Pilots will call out their intentions (landing, take-off, etc) and clear the runway quickly.
11. There shall be no flying during facility mowing operations
12. Flying over the Golf course, access roads or public roads is prohibited.
13. Each type of aircraft must fly and pit within the area designated on the map for that type of vehicle. Fixed wing aircraft will have a standard left or right pattern depending on the wind.

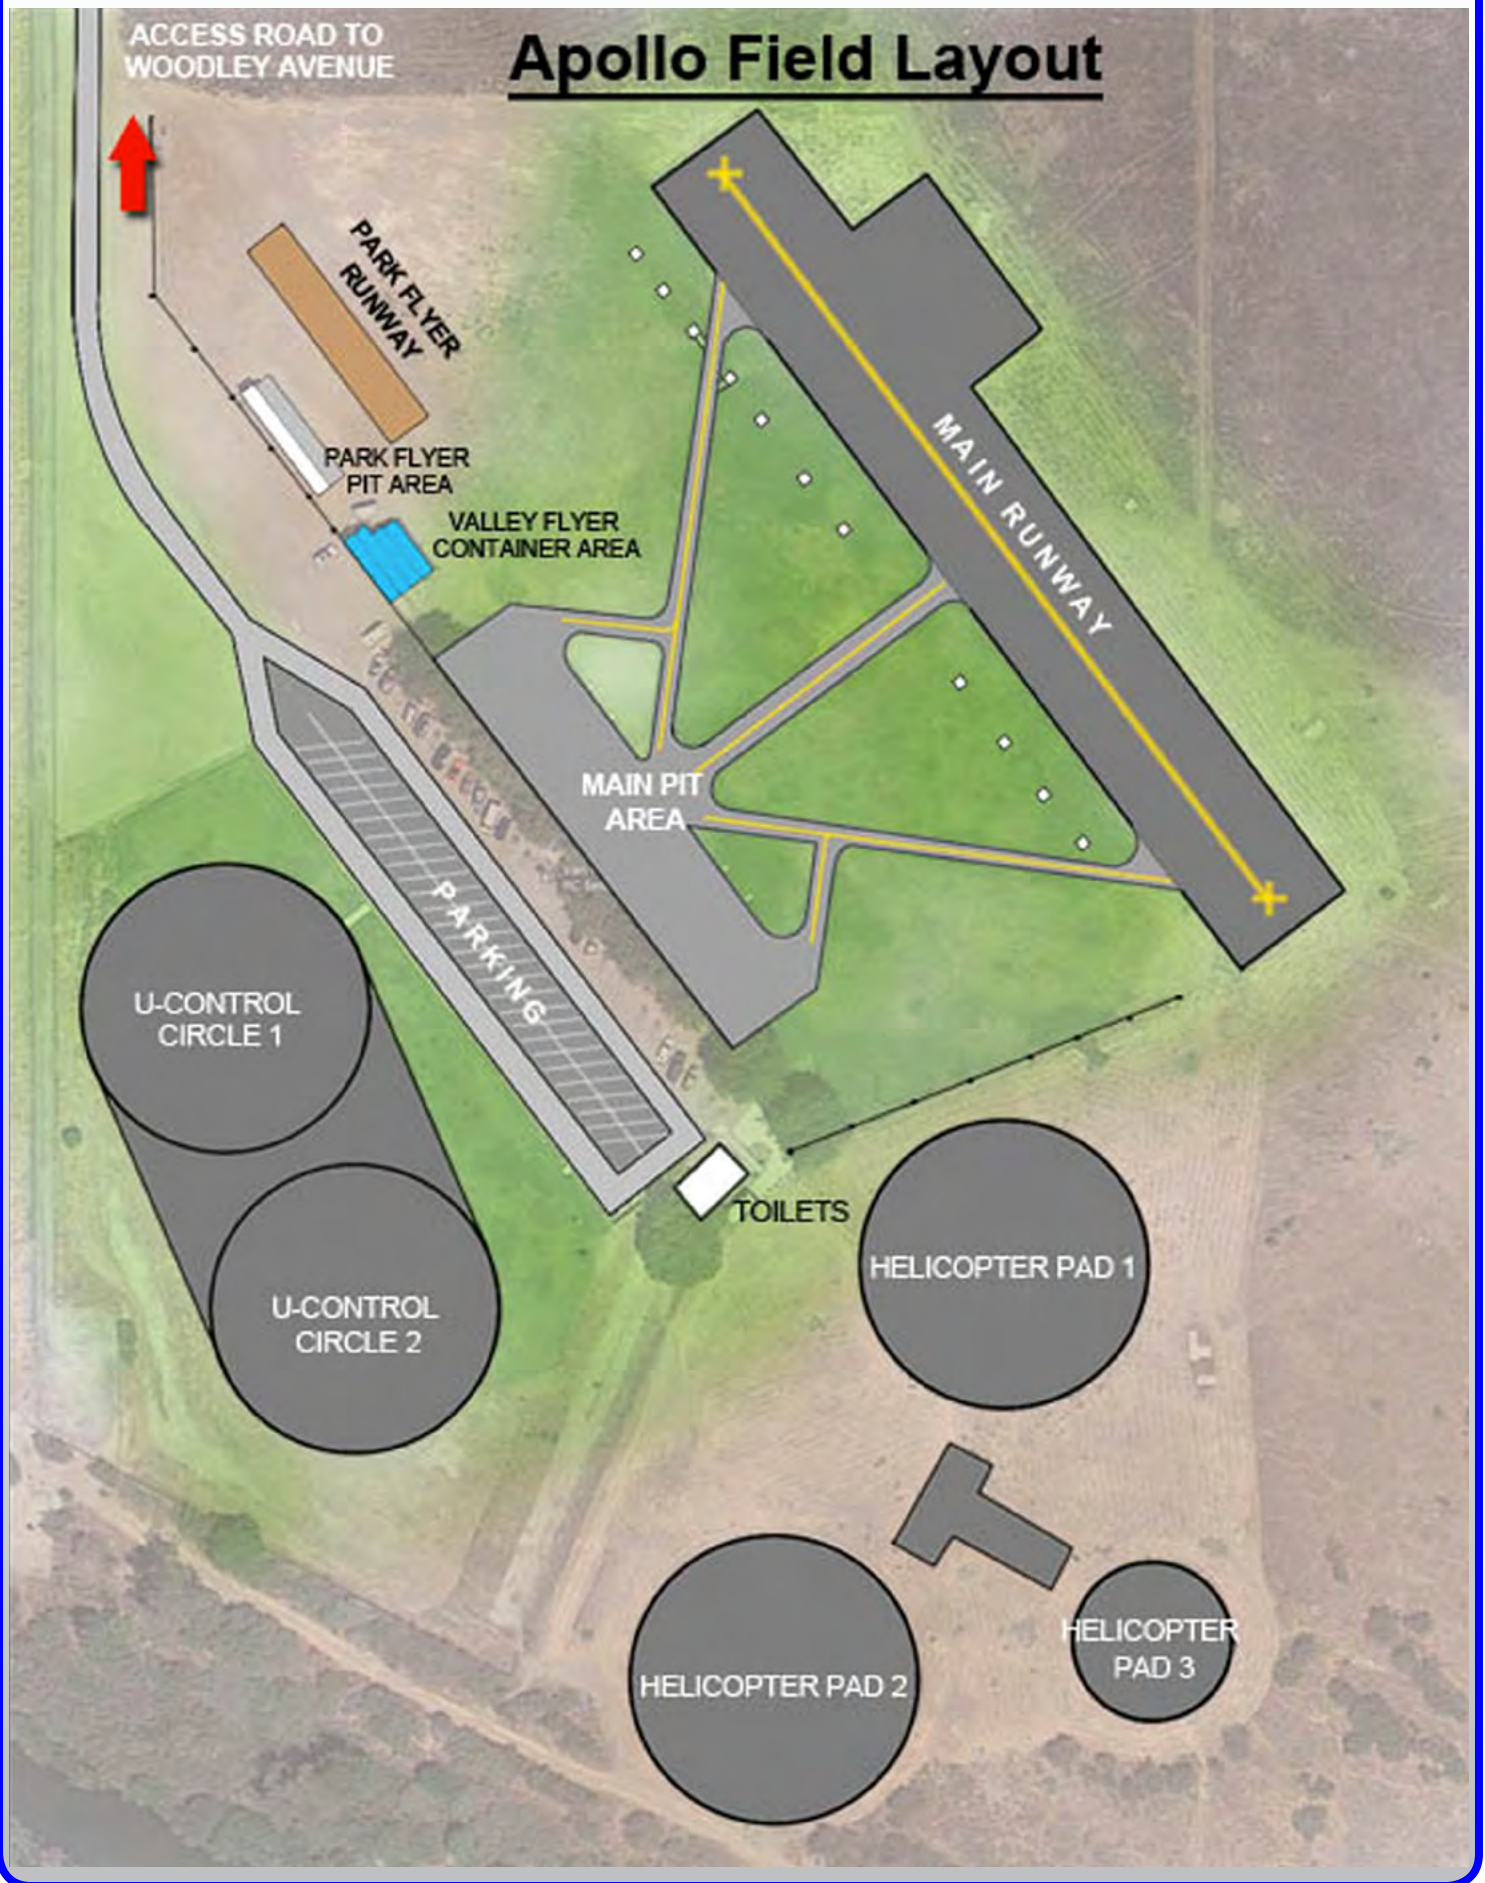

Failure to comply with these regulations may result in a citation, loss of flying privilege or both.

*****Pilots please note, the Field is closed to open flying during all Valley Flyers Events.***

Pilots must check-in to participate. A valid VF Club membership and/or AMA membership is required.
Become a member, visit www.Valleyflyers.com for more information. 2/2013

ADDENDUM TO RULES AND REGULATIONS

- 1) Fly from the designated flying areas, no taxi way take offs please to prevent low pass collisions.
- 2) Fly on the runway side with the other flyers, to communicate with each other.
- 3) Call your intentions-Taking Off, Landing, ***Remember Landings have priority.***
- 4) Fly the pattern everyone else is flying, unless you communicate with each other.
