### Upcoming Events

**Saturday July 18th**  
*L.A. Jets Summer*

**Tuesday July 28**  
*Club meeting at the field*

**Saturday August 1st**  
*All scale event*

We would like your feedback. If you have ideas for improving the newsletter, or would like to submit articles/ideas, contact: [emayer@pacbell.net](mailto:emayer@pacbell.net). **Ted Mayer, Newsletter editor**

Another month has passed and the summer heat is in full swing. I wanted to first thank all of the members that participated in the fun fly. It turned out to be a winner with 65+ pilots participating. I also wanted to thank Mr. Bert Magbanua

Bert installed a new fence on the helicopters area. We are in the process of a big reorganization and improvement in that area. There will be a double fence on the walking path to prevent the public walking on to the flying circles. We are also adding some sheds (especially after the tree is cut down) which provide shade and protection. I'm working to get approval from Parks and Recreation. Don't forget **July 25** we need volunteers to clear all the weeds

at the Glendale field. We want to clear all the weed get ready to finally open the field. If you can help please be in Apollo filed in 8.30Am or we can meet at the field in Glendale. Have a great month of flying and see you at the club meeting at the field  
July28 -7:00Pm

**Benny Elkouby**  
President

I would personally like to thank **Glen Roe** for getting the Charging station back up and running in the Electric Area. If you see him thank him. **Rusty, Shawn, Benny, Barb** and myself worked hard in the shed getting it cleared out for the wash down this past weekend. We need to wash the walls down for the makeover. Big thanks to **Paul Rafael**, who got left out on the contributions to getting the electric up, and to **Mark Selkirk** who through the BBQ for us this past Sunday Jan 18th, 2015. We still need some help funding the new Main Charging Station, see Benny, Barb, or myself at the field on the weekends.

### **BIG CAUTION:**

**Landings have priority over take offs!!**

If you are waiting to take off, hold your position off the runway **until called landings are completed.**

Just by calling 'Taking Off' after a landing has been called, is not an excuse to go head. The consequence is the landing pilot has to take his eye off of his plane. It ruins concentration when bringing your plane in for a safe landing.

Please use common sense. We don't have a control tower to instruct you that you're clear for take off.

You could be liable if you cause a landing that damages the incoming plane. Some of these planes are expensive!!

**D.B.D.**" Don't Be Dumb."

### **HEIGHT RESTRICTIONS**

We have been getting complaints about planes exceeding designated height limits of 400 feet.

Jets going vertical easily exceed 400feet. In addition 3D airplanes doing maneuvers also exceed these height restrictions.

**This needs to stop!** If this continues the airport has the jurisdiction to close the field down.

Lets all be more careful!

Thanks

**Mike Stoner**  
Vice President

Just a retro thank you to Tom Wolf and his assistant Ben Strasser for the Mosquito presentation in June.

Tom, thanks for the time expended on your part to bring this giant scale aircraft for us to view close-up and personal! What a treat!

**The entertainment for the July meeting** will be Mort Rosenthal and his modified EZ BALANCER station setup. ( see Page4) I have used this tool, but I'll bring my Giant Aeromaster to see if his tool setup makes large plane balancing any easier.  
Treasurer, Bob Smith

**JULY FINANCIAL REPORT**

Checking balance \$ 11,330.12  
PAY PAL BALANCE \$179.77  
BALANCE \$11,509.89

**Bob Smith, Treasurer**

***JULY RAFFLE***

***AT THE TUESDAY JULY 28th CLUB MEETING***

***SEAGULL MODELS ISPORT***

The July raffle will consist of the new SEAGULL ISPORT. The Seagull iSport is a low-wing plane designed with the sport flier in mind. As the next-step after a trainer, the iSport is a true sport aerobatic flyer, able to do a variety of smooth aerobatics for pilots of any skill-level. It's flight characteristics will satisfy both the veteran and intermediate RC pilot. Constructed from light weight balsa and plywood. Functional flaps add a level of capability that complements its grace and flight performance.

**SPECIFICATIONS:**

Wing Span	65 in.	165 cm
Wing Area	821.5 sq.in.	53 sq dm
Fuselage Length	50.7 in	128.7 cm
Approx. Flying Weight	7.1 - 7.9 lbs	3.2 - 3.6 kg
Recommended. Engine Size		
2-Stroke	.55 - .61 cu. in.	
4-Stroke	.61 cu. in.	
Gas	10 - 15 cc	
Electric Motor	60-size	
Radio Req.	5 Channel w/ 7 servos

***Please help support your club by purchasing some raffle tickets!***

## EZ BALANCER AND EZ BALANCER LITE

I just added the standard size EZ Balancer to my 'shop' after trying to balance large 72" biplanes on the smaller version. I reported on the "Lite" version some-time back. It's worth the ex-

pense if you build large aircraft well over 15 pounds, in my opinion. I've tried to balance a large Aeromaster for 3 years (off and on) and haven't been successful with either the finger

method with two people or the Balancer Lite. So... I'm adding the larger system to be able to fly the aircraft with reasonable success!

EZ BALANCER LITE  
retails for \$85 plus S & H

EZ BALANCER  
retails for \$230 plus S&H

Logon to the EZ Balancer site [www.ezbalancer.com/index.html](http://www.ezbalancer.com/index.html) for more details on this tool or visit Frank Tiano Enterprises at [www.franktiano.com](http://www.franktiano.com) for ordering.

See you at the field, Bob Smith

## Member Benefit Update

Dear Edward,

Your auto insurance is supposed to guard you every mile you drive ... every day of the year. **But what if you're paying too much for protection that stops short if you're in an accident?**

As an AMA member, it's easy to find out. [Get your qualified quote now](#)

- You could **pay less for every auto insurance bill with a special discount.**
- What if you could cut those bills while at the same time providing **peace of mind for your loved ones when they're on the road?**
- Vanishing Deductible® - Add Vanishing Deductible and get \$100 off for every year of safe driving. Your deductible could even go down to zero.\*

Because you are a member of AMA, Nationwide offers you a discount.

Thanks to an alliance between Academy of Model Aeronautics and Nationwide Insurance®, you can lower your auto insurance bills - while you set up even higher peace of mind whenever you're on the road.

And what if you're in an accident? Just one accident could cost a safe driver like you as much as \$500.00 - **but it doesn't have to.**

Sincerely,  
Nationwide Insurance

**P.S. If you act fast, you could even qualify for a refund on your current coverage.** Your current auto insurance company is required to issue you a prompt refund check for the majority of the premium that hasn't been used under your current policy.\*\*

So why wait? [See how much you could save as an AMA member today. You can also call 1-888-889-4322.](#)

**YOU** can't afford  
to miss **EITHER!**

**Join the flyers**

# 65 YEARS OF SERVICE

## Dear Model Aircraft & Radio Control Enthusiast,

Thank you for your interest in Model Aviation. The San Fernando Valley Radio Control Flyers (SFVRCF) is Academy of Model Aeronautics Charter Club #152, and in 2015 the club will enjoy its 65<sup>th</sup> year! Joining the Valley Flyers is a great way to support the hobby while enjoying the rich, educational benefits and camaraderie that Club membership can bring.

The main emphasis of the Club is the promotion of model aviation, to maintain the Apollo XI field both physically and politically for model aviation, and to promote good fellowship and community relations. With your membership, you support the many Apollo XI field improvements and community relations projects the club is championing.

### Benefits of Membership Include:

- Free flight instruction. We use our Club trainer airplanes, radios, and fuel... You provide the enthusiasm!
- Free Annual BBQ & Club-subsidized End-of-Year Holiday Party & Award Presentation & FREE Fun Fly Events.
- Club Meetings including Show-And-Tell, Model-Related Programs & Presentations, and a Monthly Raffle.
- RC eNews – Timely and informative email messages about upcoming events, field closure notices and more.
- The Valley Flyer – The club's official newsletter.

Please fill out and sign the membership application. Send the application with a check for the membership dues (make check payable to **The Valley Flyers**) to Valley Flyers Membership, PO Box 2055, North Hills, CA 91393. Alternately, you may bring your application to a Club meeting, or sign up using PayPal<sup>®</sup> at [www.valleyflyers.club](http://www.valleyflyers.club) online.

Prospective Members and Guests are always welcome and invited to Club meetings. Your support is greatly appreciated.

Barbara Brace, Membership Director  
[babz2008@gmail.com](mailto:babz2008@gmail.com)  
 818-310-1874

Along with your modest annual dues, you need to have a current membership in the **Academy of Model Aeronautics**. If you are not yet an AMA member, you can sign up by calling 765-287-1256 or visiting [www.modelaircraft.org](http://www.modelaircraft.org) online.

### SFVRCF Club Meetings

Club meetings are held on the 4<sup>th</sup> Tuesday of each month at 7:30 PM. Refreshments will be available. Please bring a couple of extra dollars for refreshments and raffle tickets if you so desire.

2015 Club Meeting Schedule			
January	27 <sup>th</sup>	July	28 <sup>th</sup>
February	24 <sup>th</sup>	August	25 <sup>th</sup>
March	24 <sup>th</sup>	September	22 <sup>nd</sup>
April	28 <sup>th</sup>	October	27 <sup>th</sup>
May	26 <sup>th</sup>	November	24 <sup>th</sup> Annual Workers Raffle
June	23 <sup>rd</sup>	December	TBD Holiday Party

The SFVRCF is Academy of Model Aeronautics (AMA) charter club # 152, and as a charter club all members of the SFVRCF must be members in good standing with the AMA. Failure to become an AMA member or to keep your AMA membership current will void your SFVRCF membership. Your AMA membership is verified each year when you renew your club membership. SFVRCF members are expected to abide by club bylaws, Academy of Model Aeronautics rules, Apollo XI field flying regulations, and normal standards of conduct and courtesy.

## Apollo XI Field Flying Regulations

**This facility is designed to accommodate four general types of powered remotely controlled aircraft in separate areas of the park.**

1. Radio controlled heavier than one pound on the main runway.
2. Radio controlled one pound or less & R/C gliders North of the pit area.
3. Radio controlled helicopters South of the pit area
4. Control line flight in the designated Control line circles

This facility does **NOT** accommodate free flight aircraft, Kites, rocketry of any kind: R/C cars or R/C trucks.

## Radio Control Flight Rules

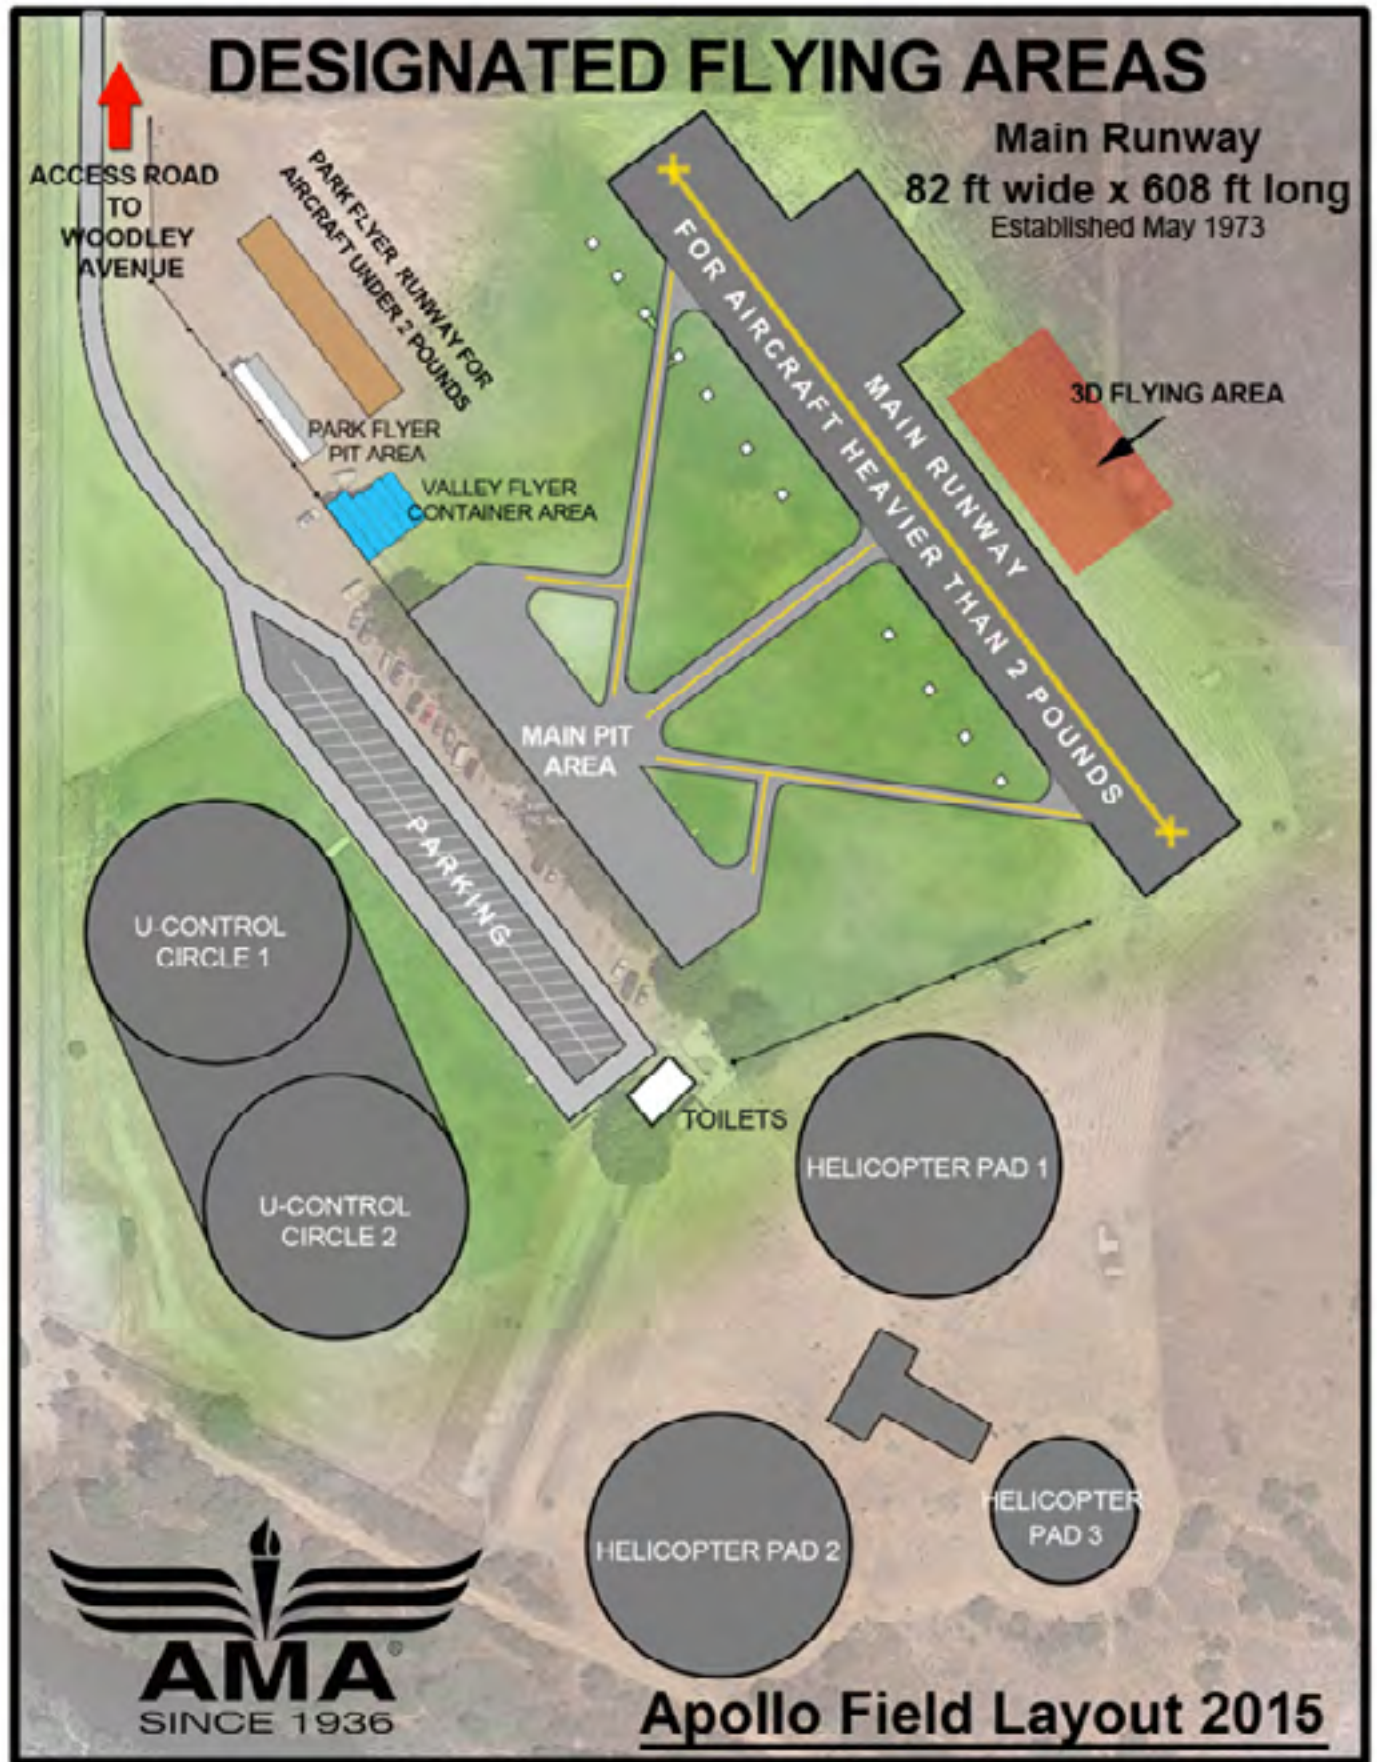

1. All pilots must fly from one of the designated pilot stands.
2. The frequency board will be used at all times and pilots must post their frequency usage with a card or I.D that contains their name or picture I.D.
3. Open flying is restricted during scheduled events.
4. No take offs and landings from the pit area, taxiways, or grass.
5. 400 feet maximum flying altitude.
6. Take-off and landings to be in the same direction according to the wind.
7. Down-wind passes over the runway are prohibited when other aircraft are flying.
8. Some sort of fuel recovery system must be used when fueling planes to avoid spillage.
9. All pilots will follow taxiways directions as posted.
10. Pilots will call out their intentions (landing, take-off, etc) and clear the runway quickly.
11. There shall be no flying during facility mowing operations
12. Flying over the Golf course, access roads or public roads is prohibited.
13. Each type of aircraft must fly and pit within the area designated on the map for that type of vehicle. Fixed wing aircraft will have a standard left or right pattern depending on the wind.

***Failure to comply with these regulations may result in a citation, loss of flying privilege or both.***

***\*\*Pilots please note, the Field is closed to open flying during all Valley Flyers Events.***

### ADDENDUM TO RULES AND REGULATIONS

- 1) Fly from the designated flying areas, no taxi way take offs please to prevent low pass collisions.
- 2) Fly on the runway side with the other flyers, to communicate with each other.
- 3) Call your intentions-Taking Off, Landing, ***Remember Landings have priority.***
- 4) Fly the pattern everyone else is flying, unless you communicate with each other.  
The first one out flying dictates direction, or wait til he is finished.
- 5) 3 D stunt flying should be done ***off*** the runways to avoid mid air collisions.
- 6) stay within the boundaries as much as possible to avoid mid air collisions.
- 7) Most of all: new pilots at the airfield, If you think you might need help a lot of us are there to assist you, so you don't crash your plane, or crash into some one. Working on your planes, make sure some one is helping you, I've seen too many times propeller cuts to the pilot or bystander.
