Tuesday May 26th
VF General meeting

We would like your feedback. If you have ideas for improving the newsletter, or would like to submit articles/ideas, contact: emayer@pacbell.net. Ted Mayer, Newsletter editor

I wanted to thank all of the members that participated in the **SAE Aero Design** competition. We had 72

teams which represented more than 620 participants. It was a tremendous undertaking that many clubs could not have taken on.

Sam Gengo directed this event and put in a great deal of effort to bring it together. My personal

gratitude To the SAE volunteers. Thank you for your time, thank you for your talents, and thank you for all that you contributed to SAE International. Without you, it simply would not have been successful.

Kudos to Sam Gengo for running a first class SAE event. I look forward to working with you all again soon !!

The **Hobby People Engine Clinic/ Fun Fly** turned out to be a winner. Hobby People managed to attract a nice crowd for their electric and glow engine Presentations. They gave away glue to all participants and had

a drawing for some engine giveaways. Thank you Hobby People.

CD Matt Carrol

Have a great month of flying Peace

Benny Elkouby
President

I would personally like to thank **Glen Roe** for getting the Charging station back up and running in the Electric

Area. If you see him thank him. **Rusty, Shawn, Benny, Barb** and myself worked hard in the shed getting it cleared out for the wash down this past weekend. We need to wash the walls down for the makeover.

Big thanks to **Paul Rafael**, who got left out on the contributions to getting the electric up, and to **Mark Selkirk** who through the BBQ for us this past Sunday Jan 18th, 2015. We still need some help funding the new Main Charging Station, see Benny, Barb, or myself at the field on the weekends.

BIG CAUTION:

Landings have priority over take offs!!

If you are waiting to take off, hold your position off the runway ***until called landings are completed.***

Just by calling 'Taking Off' after a landing has been called, is not an excuse to go head. The consequence is the landing pilot has to take his eye off of his plane. It ruins concentration when bringing your plane in for a safe landing.

Please use common sense. We don't have a control tower to instruct you that you're clear for take off.

You could be liable if you cause a landing that damages the incoming plane. Some of these planes are expensive!!

D.B.D." Don't Be Dumb."

HEIGHT RESTRICTIONS

We have been getting complaints about planes exceeding designated height limits of 400 feet.

Jets going vertical easily exceed 400feet. In addition 3D airplanes doing maneuvers also exceed these height restrictions.

This needs to stop! If this continues the airport has the jurisdiction to close the field down.

Lets all be more careful!

Thanks

Mike Stoner
Vice President

MAY RAFFLE

AT THE TUESDAY MAY 25TH CLUB MEETING

PHOENIX STINSON GP/EP ARF

The scheduled give away is the Stinson ARF by Phoenix models. It's scheduled to be in stock mid May. If that Changes we'll have something else.

It flies with a glow or electric setup.

FEATURES

Compatible with glow or electric setups. High-wing increases stability, bolt-on two-piece wing for easy transport. Removable canopy for easy radio gear set-ups and LiPo battery changes. Strong lightweight construction, pre-painted pilot figure, full assembly hardware

SPECIFICATIONS

Stock Number: PMMA1357

Wingspan: 63.3 in (1608 mm)

Length: 49.2 in (1250 mm)

Weight: 6-7 lb (2.8-3.2 kg)

Requires: 4-channel radio w/5 servos, 2-stroke .46-.55 or 4-stroke .52-.61 engine and fuel

or RimFire™ .46-.55 outrunner brushless motor, 80-100A ESC, 3S-4S 4000-5000mAh LiPo battery & charger

Radio XI Field

TOM WOLF – JUNE MEETING PRESENTATION

Tom Wolf has been building and flying radio controlled aircraft since 1966. His first RC airplane was a Midwest Lil Esquire controlled by a single channel radio with an escapement. He became interested in scale modeling very early and in 1967 he built his first scale airplane, a Curtiss Jenny, from plans that were published in a magazine. Other scale aircraft he has built over the years include a Nieuport 11, P-51 Mustang, HP-18 sailplane, Supermarine Spitfire Mk IX, two Grumman TBM-3 Avengers, a Boeing 314, and two Mosquito FBVIs. Tom has designed over a dozen model aircraft (scale and sport, powered and gliders), including the

Nieuport, HP-18, Boeing 314, and several original (non-scale) designs.

After participating in numerous scale fly-in events and local club scale contests throughout the years, Tom began competing in scale on a serious basis in 2002 with his first competition being the Gunsmoke Scale Masters Qualifier in Mesa, Arizona. Tom had such a good time at that first event that he was hooked on scale competition, which has been the focus of his modeling activities since then. Tom has competed at eight US Scale Masters Championships and achieved Grand Champion status at the 2013 Championships.

He has also competed at Top Gun three times (2007, 2008 and 2012; 13th, 11th, and 6th place respectively). In addition he has competed at three NW Scale Championships (2012, 2013, and 2014).

Tom has a Bachelor of Science in Mechanical Engineering from University of California at Santa Barbara and worked for a defense contractor for 33 years before retiring almost four years ago. Tom is a member of the US Scale Masters Association, the Northwest Scale Aero Modelers, the Santa Barbara RC Modelers and the Ventura County Comets.

The Glendale field

Page 8

The Work Resumes!!

Because of other priorities, the Glendale field has not received much attention lately.

The lack of attention has resulted in lots of weeds and an overgrown runway.

With hopes of opening up the field to members, by the end of the year, we are organizing working parties to get the place in shape.

Here you can see Barbara Brace helping to clean up and Benny Elkouby clearing out the runway

Experience the Excitement!

Planes of Fame Air Museum is proud to present Air Show 2015, May 2 & 3: "A Salute to Veterans". This year's airshow will feature nearly 50 historic aircraft, performing for your enjoyment as well as a salute to our veterans. We invite you to Airshow 2015 to celebrate the history, contributions, and sacrifices of our veterans.

Performers include U.S.A.F. F-22 Raptor Demo Team and Heritage Flight, Sean D. Tucker-Team Oracle Aerobatics, Canadian Forces CF-18 Hornet Demonstration Team, Sea Fury Aerobatics by Sanders Aeronautics, Clay Lacy's Learjet Demonstration, Rob Harrison and the Tumbling Bear, Gregory Colyer's T-33, John Collver's AT-6 Aerobatics, and over 40 WWII aircraft including B-25, P-47, and P-51s. In addition to many other fantastic airplanes that will be performing and on static display, there will be a special panel discussion with a large number of our honored veterans. A special educational display by the Remembrance Rescue Project will present Rescue 5, a restored FDNY truck, damaged during September 11th, 2001, that lost all its crew of 11 firefighters. Stay tuned for future announcements of some of our special guests. Also, be sure to catch the Preview Day & Twilight Show on May 1! View our Air Show promotional videos of performer highlights for 2015! If you are interested in helping to sponsor Air Show 2015, click [here](#) to learn about the opportunities!

Members not in attendance; Adam Gelbart, Dave Sweeny, Matt Carroll and Winston Brown. Benny confirmed SAE is 24-26 for Stoner. Winston will not be attending this board meeting. Benny owes Ted news article and so does the board team. Benny has \$100.00 from Tony Naccarato's March 29th event. Service funded by Scott Howell and repaid. Dave will not be attending the meeting, working on flooded house during vacation.

Meeting officially starts, Benny thanking everyone for supporting the event with 66 entries. Benny reported that Dave went to Gardner's house and obtained Glendale key. Like to go to Glendale the weekend before SAE, Sunday. Rusty will get trailer and load lawn mower. Generator in Glendale needs to come back for SAE event. Bring back during cleanup weekend. Benny needs volunteers. Race weekend of 4/11-4/12. No flying except control line. No problems with the heli pad used for pylon 1 recently. Quad copter pilots need to comply. Need event officials for George Finch memorial, around 15 officials.

Benny stated VF will provide food for SAE. We have received \$3575 as initial deposit and \$2000 for permit fee. Number of entries 620 students and 50 volunteers. About 750 to be served for Saturday. Leftover food from

Saturday will be used Sunday, no problem. Benny will place food order for 800 and condiments. Need to insure food serving process is efficient. Need to insure pump condiments are cleaned between uses.

Mark will be auxiliary pilot if needed.

Bring a couple dozen donuts and coffee. Sell at \$1.00 each. Maybe 5 or 6 dozen donuts. 100 burgers as veggie 700 as regular. Fuel/gas is for SAE only. Don't run generator for sound system.

Shed has a completed trainer hanging system. Shawn and Kaycee helped with painting shed. Need more paint to complete.

Mike suggested putting AMA signs up for race.

One generator in heli, half way to field to podium. One generator for students and one for PA system.

Will have more electric entries this year. Students cannot use park flyer charge table for pitting. Must be 25 feet away from table. Setup yellow strips as boarder. SAE will provide Porta Potties and will request a Sunday morning or Saturday evening.

Friday is SAE inspection at Airtel Plaza. Insure blue print measurements and actual aircraft match.

We are providing 10% Byron's fuel.

Show up at Airtel around 7:30, parking is validated.

Bob Smith. Pizza Fun Fly =Bob \$65 \$140 on pizza \$110 on coffee, 66 entries, 4 non VF members. \$42 caps and shirts

Need help for Q500, will have gift cards as drawing prizes. About \$700 was spent on Q500 plaques and \$480 for fuel.

Sent email to Foundation members on runway refurbish by a member's relative. No response as of yet.

Cracks come back in two to three months after repair.

Resurfacing \$15,000 costs. \$80,000 for a complete redo is the estimate. Parks and Recs does heli and control line circle cracks.

Flying quads is becoming an issue with one pilot. Mark and Benny will discuss.

Member wants to have a birthday party at field. Rusty and Benny will look into it, as far as location and party counts. Benny does not want to close the field for this event. Will not be on the schedule.

Will be sometime after SAE, if at all.

Barbara thanked Benny for cleaning the office etc. Membership card printer is not working. Ordering a cleaning kit (I've done this).

Meeting concluded at 8:30 p.m.

65 YEARS OF SERVICE

Dear Model Aircraft & Radio Control Enthusiast,

Thank you for your interest in Model Aviation. The San Fernando Valley Radio Control Flyers (SFVRCF) is Academy of Model Aeronautics Charter Club #152, and in 2015 the club will enjoy its 65th year! Joining the Valley Flyers is a great way to support the hobby while enjoying the rich, educational benefits and camaraderie that Club membership can bring.

The main emphasis of the Club is the promotion of model aviation, to maintain the Apollo XI field both physically and politically for model aviation, and to promote good fellowship and community relations. With your membership, you support the many Apollo XI field improvements and community relations projects the club is championing.

Benefits of Membership Include:

- Free flight instruction. We use our Club trainer airplanes, radios, and fuel... You provide the enthusiasm!
- Free Annual BBQ & Club-subsidized End-of-Year Holiday Party & Award Presentation & FREE Fun Fly Events.
- Club Meetings including Show-And-Tell, Model-Related Programs & Presentations, and a Monthly Raffle.
- RC eNews – Timely and informative email messages about upcoming events, field closure notices and more.
- The Valley Flyer – The club's official newsletter.

Please fill out and sign the membership application. Send the application with a check for the membership dues (make check payable to **The Valley Flyers**) to Valley Flyers Membership, PO Box 2055, North Hills, CA 91393. Alternately, you may bring your application to a Club meeting, or sign up using PayPal® at www.valleyflyers.club online.

Prospective Members and Guests are always welcome and invited to Club meetings. Your support is greatly appreciated.

Barbara Brace, Membership Director
babz2008@gmail.com
 818-310-1874

Along with your modest annual dues, you need to have a current membership in the **Academy of Model Aeronautics**. If you are not yet an AMA member, you can sign up by calling 765-287-1256 or visiting www.modelaircraft.org online.

SFVRCF Club Meetings

Club meetings are held on the 4th Tuesday of each month at 7:30 PM. Refreshments will be available. Please bring a couple of extra dollars for refreshments and raffle tickets if you so desire.

2015 Club Meeting Schedule

January	27 th	July	28 th
February	24 th	August	25 th
March	24 th	September	22 nd
April	28 th	October	27 th
May	26 th	November	24 th Annual Workers Raffle
June	23 rd	December	TBD Holiday Party

The SFVRCF is Academy of Model Aeronautics (AMA) charter club # 152, and as a charter club all members of the SFVRCF must be members in good standing with the AMA. Failure to become an AMA member or to keep your AMA membership current will void your SFVRCF membership. Your AMA membership is verified each year when you renew your club membership. SFVRCF members are expected to abide by club bylaws, Academy of Model Aeronautics rules, Apollo XI field flying regulations, and normal standards of conduct and courtesy.

Apollo XI Field Flying Regulations

This facility is designed to accommodate four general types of powered remotely controlled aircraft in separate areas of the park.

1. Radio controlled heavier than one pound on the main runway.
2. Radio controlled one pound or less & R/C gliders North of the pit area.
3. Radio controlled helicopters South of the pit area
4. Control line flight in the designated Control line circles

This facility does **NOT** accommodate free flight aircraft, Kites, rocketry of any kind:
R/C cars or R/C trucks.

Radio Control Flight Rules

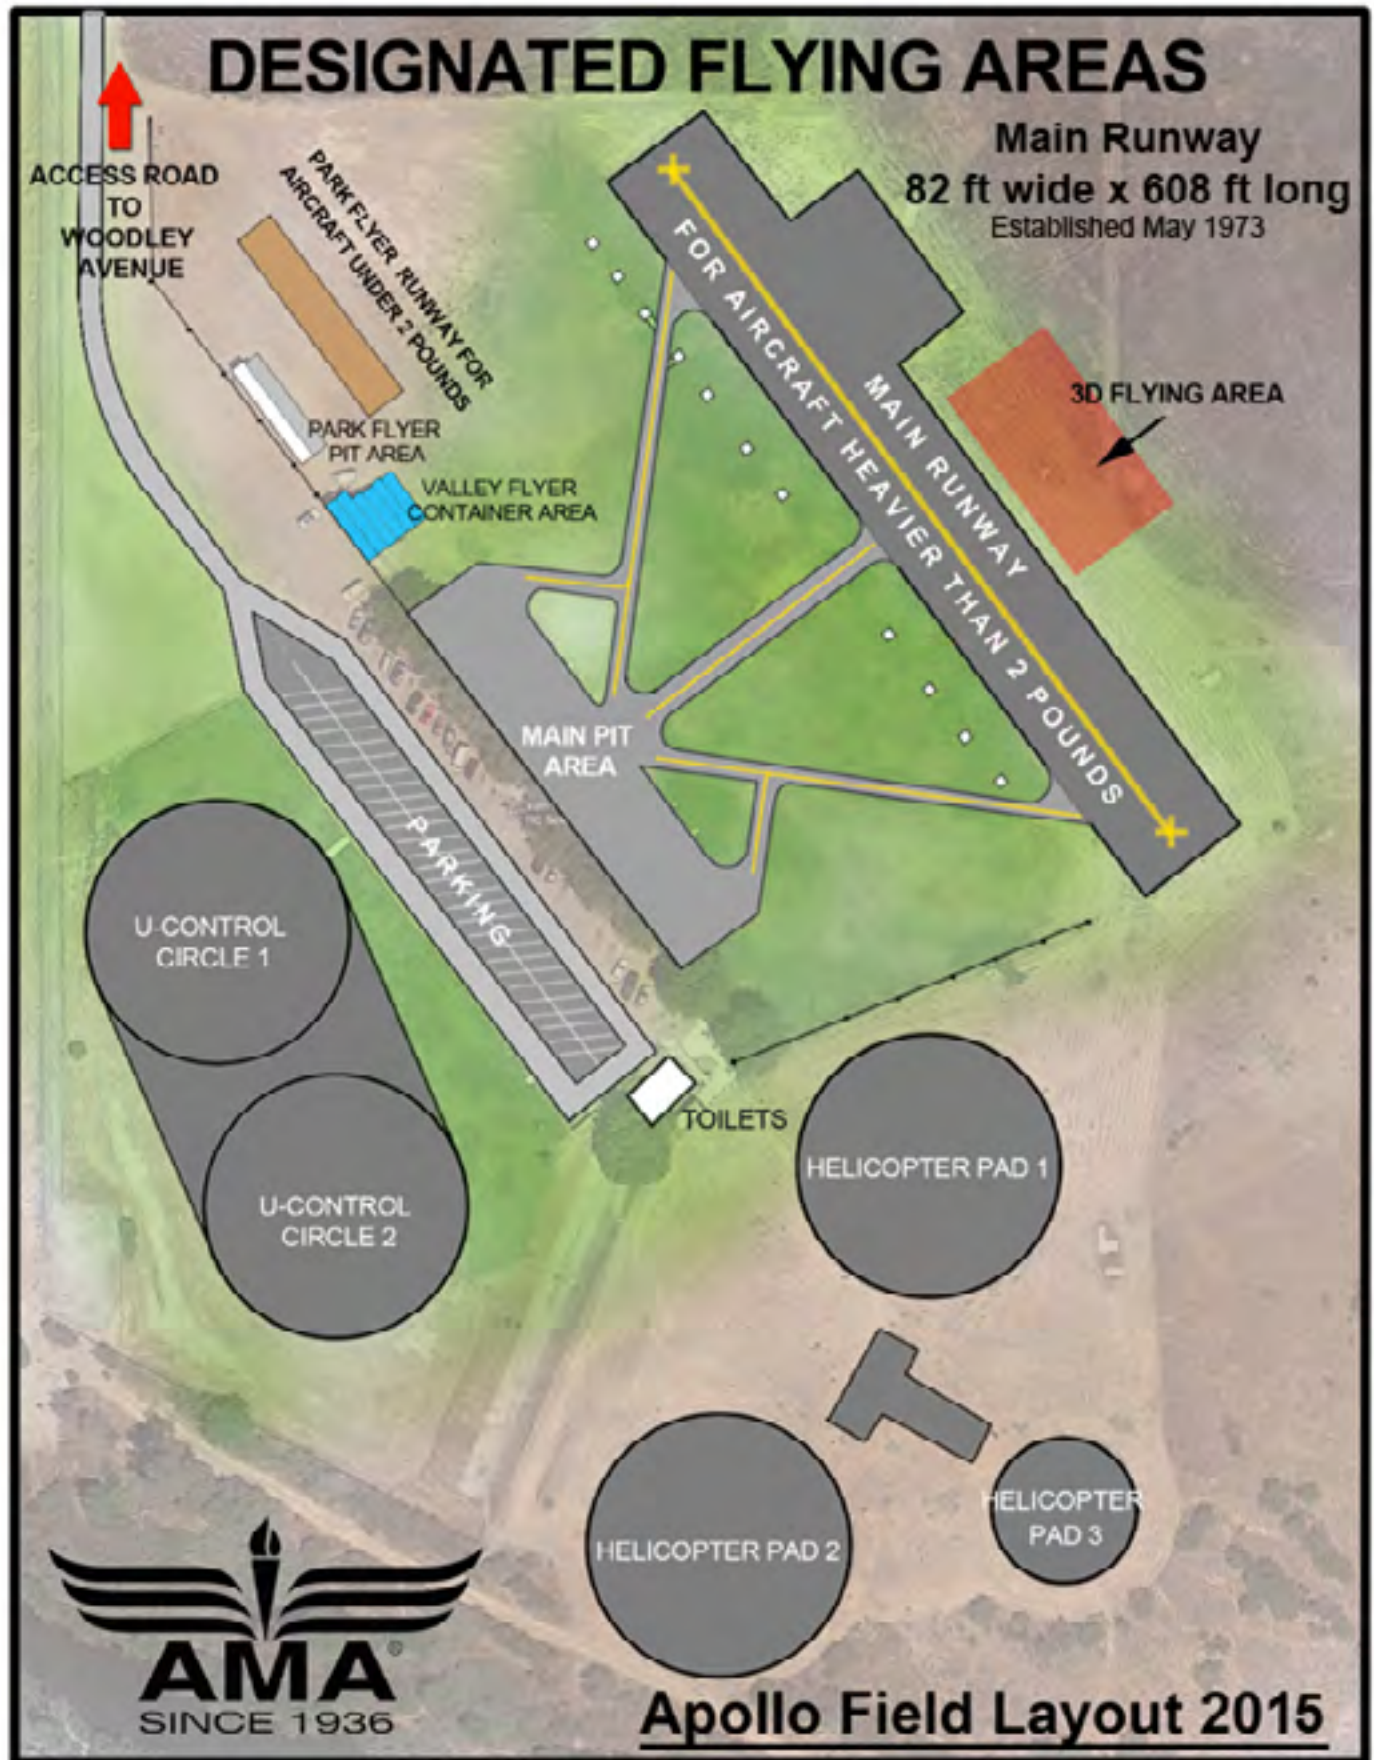

1. All pilots must fly from one of the designated pilot stands.
2. The frequency board will be used at all times and pilots must post their frequency usage with a card or I.D that contains their name or picture I.D.
3. Open flying is restricted during scheduled events.
4. No take offs and landings from the pit area, taxiways, or grass.
5. 400 feet maximum flying altitude.
6. Take-off and landings to be in the same direction according to the wind.
7. Down-wind passes over the runway are prohibited when other aircraft are flying.
8. Some sort of fuel recovery system must be used when fueling planes to avoid spillage.
9. All pilots will follow taxiways directions as posted.
10. Pilots will call out their intentions (landing, take-off, etc) and clear the runway quickly.
11. There shall be no flying during facility mowing operations
12. Flying over the Golf course, access roads or public roads is prohibited.
13. Each type of aircraft must fly and pit within the area designated on the map for that type of vehicle. Fixed wing aircraft will have a standard left or right pattern depending on the wind.

Failure to comply with these regulations may result in a citation, loss of flying privilege or both.

*****Pilots please note, the Field is closed to open flying during all Valley Flyers Events.***

ADDENDUM TO RULES AND REGULATIONS

- 1) Fly from the designated flying areas, no taxi way take offs please to prevent low pass collisions.
- 2) Fly on the runway side with the other flyers, to communicate with each other.
- 3) Call your intentions-Taking Off, Landing, ***Remember Landings have priority.***
- 4) Fly the pattern everyone else is flying, unless you communicate with each other.
The first one out flying dictates direction, or wait til he is finished.
- 5) 3 D stunt flying should be done ***off*** the runways to avoid mid air collisions.
- 6) stay within the boundaries as much as possible to avoid mid air collisions.
- 7) Most of all: new pilots at the airfield, If you think you might need help a lot of us are there to assist you, so you don't crash your plane, or crash into some one. Working on your planes, make sure some one is helping you, I've seen too many times propeller cuts to the pilot or bystander.
