Temperature is getting Hotter

Valley Flyers Club I thank you!

Why? All of you stand firm to volunteer or do not care to volunteer at least your

honest. It is hard to miss a few days out of the year to help the club financially.

The board is going to find a way to reward those who are reliable volunteers and don't mind helping out as well as paying their dues. I already have given 1 life time honorary membership this year.

I will be in forming 3 SAE volunteers next month that their 2020 membership will be waived for their outstanding help at the event April 5-7, 2019. Also I am not sure that any of you knew that Saturday April 6, 2019 we had two AMA sanctioned events happening at two different locations. I know it's a history maker in Valley Flyers. Thank you **Mike Myers**, **Adam Kline**, and all the volunteers at the Glendale Valley Flyers field on that day.

SAE volunteers great job Saturday, Sunday not so good. The volunteer numbers dropped way lower then Saturday. Some people volunteered all 3 days. 12 hours Friday, Saturday 8-10 hours, and Sunday 5-7 hours volunteering those are faithful club members. Club members I am personally asking for your help in future events. The

more volunteers we have the less time in the baking sun for hours, 50 volunteers will work but 75-100 reliable professional volunteers we can then get the news camera out and get a sprinkler system until then why chance it? Glendale and San Fernando Valley Flyers R/C club congratulations for making history with the club, AMA they are looking in the archive seeing if it's making history with them.

Club members it is your flying field respect the posted signs and cones. As at Glendale and the 2 freeway I witnessed 15 Sand box violations by pilots flying in the flight path of the main runway.

I was on the other side making a 100 foot circle. 4 days from 12 pm until 6 pm. I knew who was in control of each aircraft in the air on main runway pilots would be sure I was aware of them flying.

After seeing what the main runway pilots deal with we moved the cones closer to you for your aircraft safety let alone your bank account. If your aircraft is in violation it's your responsibility. If you cannot stay inside the cones stop flying there! I am 3 years into flying and I do not fly in the sand box. Use the main runway. Please also keep it safe, no more popping batteries. It is not safe number one and number 2 it is toxic. If it is not safe don't do it. We are all adults but not perfect.

Flying in the areas allowed to be flown is great. When you fly a helicopter or

quad with FPV and some person seeing will also think it is okay to fly in the pits or Sand Box. Please fly your toy where you're allowed to fly. If we let you do it we have to let everyone do it. Even though it s a public park, club members respect club guidelines, maps, AMA safety code. Remember you are not only supporting the club by being an AMA member but you must remain in good standings with AMA.

I try to be a professional leader because you elected me as club president and wanted a change, hope I have shown you some changes in 4 months. What I need from the club members is to be professional volunteers that are able to support club hosting events. The next two months we have 2 or 3 events each month and it's going to be hot. That is why I am asking for your help. People from everywhere are saying how I have changed the Valley Flyers club atmosphere. I have to thank them adding Valley Flyers club members have changed.

Honestly, the entire club makes it easy to look good, thank you! Stay hydrated; keep it simply safe at Apollo XI flying field and Glendale flying field.

You're President,
Jason Mansfield

ADAM KLINE, GLENDALE Field Marshal
adamkline@deltadistributing.net | 626-437-8850

Hi Everyone.

My name is **Sharon Riberdy**. I am the Membership Director for The San Fernando Valley R/C Flying Club and also the Glendale Club. I have been a member of the club since 2015. It is my goal to make membership registration as painless as possible. I am at the field on Saturday and Sunday, stop by and say hello.

Ted Mayer. I've been a member since 1978. Originally from England where I was an apprentice with DeHavaland Aircraft. I work as a freelance industrial designer in the toy and medical fields. I fly fixed wing aircraft, mostly scale. I also work professionally as a jazz guitarist around the L.A. jazz clubs. I run the website, the newsletter, and do all the event flyers.

Adam Kline (New Glendale Field Marshal). I am married and have a 12 year old daughter that enjoys coming up to the field. I myself have been flying radio control since 1978. Flew primarily gliders until 1992 and then flew glow fuel models at the Glendale Field when it was run by the Glendale Skyhawks. I was Field Marshal for the Glendale Skyhawks for three years and was the person that brought up a tractor to level the field back in 1993. I am glad to be back flying at what I consider my home field since I was a teenager and look forward to many more improvements at the Glendale Field. I fly electric fixed wing now and enjoy the close friends I have made now that the field is reopened. Hope to see everyone doing the same.

Russ Garske

I started flying RC helicopters (GMP Crickets) in the Late 70s. Then life got in the way for 30 some odd years until this past summer when I returned to the sport flying electric powered planes. I joined Valley Flyers in September and Jason convinces me to help out by joining the Board. Hope to see you out on the flight line. Happy Landings

Jonathon Jones

Born in Los Angeles . life long interest in flight of all sorts. married still raising a teen.

To be continued.....

NEW RULES!!**NEW RULES!!**

Unmanned Aircraft Systems

An unmanned aircraft system (UAS), sometimes called a drone, is an aircraft without a human pilot onboard – instead, the UAS is controlled from an operator on the ground.

(Thats Fixed Wing, Rotary Wing or Multi Rotor)

Thats All of Us!!!

On October 5, 2018, the President signed the FAA Reauthorization Act of 2018 (PDF). The Act establishes new conditions for recreational use of drones and immediately repeals the Special Rule for Model Aircraft. The agency is evaluating the impacts of this change in the law and how implementation will proceed. In the interim, please continue to follow all current policies and guidance with respect to recreational use of drones.

When you fly a drone in the United States, it is your responsibility to understand and abide by the rules.

**All pilots flying unmanned aircraft systems
over 0.55 and under 55lbs
must register with the FAA**

Go to the FAA website to register
<https://faadronezone.faa.gov/#/>

You will be subject to civil and criminal penalties if you meet the criteria to register an unmanned aircraft and do not register.

We are still encountering a few problems out at the field. We have new pilots which "Welcome to the club".

Pilots that fly in the Park Flyer area, you need to stay in the cone area

I know there is over lap in the north corner, so watch out for planes flying on the main runway area. Watch all around. Stay out of the golf course also, that's a cause for major complaints. Field etiquette and safety guidelines need to be followed, fly the direction the other pilots are flying, one plane going the wrong direction can cause a mid air accident.

Call all take offs and landings. Landings have priority over any take offs. Fly from the designated flight areas, each area has standing areas. People like to fly at the south end of the park area which is like playing on the 405 freeway, trust me if a plane hits you in the head it will effect the shape of your head. When working on your plane have some one help you especially if your are working on it, and it is pugged in. Those props hit your hand it will end your day going to the hospital. They will cut down to the bone. Don't fly into or over the pit areas. Drinking of alcoholic beverages is strictly prohibited. Your flying along with your driving is impaired. This is a big safety concern. You don't want to hurt someone and you want to be thinking clearly. Remember these are not toys. The

Quad Boys--- You need to fly in the designated area, which is at the south side of the field, not exceeding Woodley Ave Bike Path, Burbank Blvd Bike Path, and once again the Van Nuys Golf Course property. You can be cited by the authorities, and I hear it can be quite expensive. So why do it?? Everyone deserves to enjoy themselves. Last thing our height limit is 400 ft, try to abide by it. We don't need the Van Airport Police coming by. I will try to put out a list of the safety guidelines the following month. Lets fly safe, if there is a problem let the safety committee handle it.

Request:

People that get a new club membership and are requesting flight training- I need to be emailed in advance so I can have a training plane ready.

Safety.

Quadcopters need to flown in the Heli area and flown in the field area, I'm observing FPV flight without a spotter, some one needs to be in line of sight when these are flown. That is a FAA rule. Too many times I'll ask where is your quad, and I get a reply of "I don't know." Remember safety first. Height limit is 400 ft, yielding for scale aircraft at all times. The height limit is for all aircraft. In reverse pattern situations watch out for all scale aircraft approaching Van Nuys Airport from the south for landings, they come in lower than you are use to. Please stay out of their airspace what ever height they approach at.

BIG CAUTION:

Landings have priority over take offs!!

If you are waiting to take off, hold

your position off the runway ***until called landings are completed.***

HEIGHT RESTRICTIONS

We have been getting complaints about planes exceeding designated height limits of 400 feet.

Jets going vertical easily exceed 400feet. In addition 3D airplanes doing maneuvers also exceed these height restrictions.

Rec and Parks have started enforcing no assisted viewing while flying quads. We can only warn and post signs under the Mayor's amendment. If caught by law enforcement they could arrest you and confiscate your equipment. I don't want to see that happening to anyone.

So at this time no flying with goggles and viewing monitors, screens ,I-pads anything other that your natural eye site, with glasses, hopefully I did not leave anything out, cell phones. Do you get the clear picture.

Safety is done informing people of this. We all want to have fun and enjoy the field, but the way its going with exceeding the height limit, I'm still getting calls from Van Nuys Airport Operations, sooner or later we will face field closure. That will really be a sad day when a 60 year old model airfield get closed due to people disregarding common sense safety guidelines to not interfere with scale aircraft landing, fly over the golf course, fly too close to people on the bike path, fly where you should not fly causing a major fatality auto accident. We need to fly smarter and safer with in our field area.

Mike Stoner

*I hear the Valley Flyers
needs Pilots!*

Join The Valley Flyers

69 YEARS OF SERVICE

Dear Model Aircraft & Radio Control Enthusiast,

Thank you for your interest in Model Aviation. The San Fernando Valley Radio Control Flyers (SFVRCF) is Academy of Model Aeronautics Charter Club #152, and in 2019 the club will enjoy its 69th year! Joining the Valley Flyers is a great way to support the hobby while enjoying the rich, educational benefits and camaraderie that Club membership can bring.

The main emphasis of the Club is the promotion of model aviation, to maintain the Apollo XI field both physically and politically for model aviation, and to promote good fellowship and community relations. With your membership, you support the many Apollo XI field improvements and community relations projects the club is championing.

Benefits of Membership Include:

- Free flight instruction. We use our Club trainer airplanes, radios, and fuel... You provide the enthusiasm!
- Free Annual BBQ & Club-subsidized End-of-Year Holiday Party & Award Presentation & FREE Fun Fly Events.
- Club Meetings including Show-And-Tell, Model-Related Programs & Presentations, and a Monthly Raffle.
- RC eNews – Timely and informative email messages about upcoming events, field closure notices and more.
- The Valley Flyer – The club's official newsletter.

Please fill out and sign the membership application. Send the application with a check for the membership dues (make check payable to **San Fernando Valley R/C Flyers**) to Valley Flyers Membership, P.O. Box 16188 Encino, Ca 91416. Alternately, you may bring your application to a Club meeting. **PayPal can be used to pay your dues through the paypal@valleyflyers.com portal.**

Prospective Members and Guests are always welcome and invited to Club meetings. Your support is greatly appreciated.

Sharon Riberdy, Membership Director
sriberdy@msn.com
 818-916-8748

Along with your modest annual dues, you need to have a current membership in the **Academy of Model Aeronautics**. If you are not yet an AMA member, you can sign up by calling 765-287-1256 or visiting www.modelaircraft.org online.

SFVRCF Club Meetings

Club meetings are held on the 4th Tuesday of each month at **7:00 PM**.

Refreshments will be available. Please bring a couple of extra dollars for refreshments and raffle tickets if you so desire.

2019 Club Meeting Schedule			
January	22	July	23 rd
February	26 th	August	27 th
March	26 th	September	24 th
April	23 rd	October	22 nd
May	28 th	November	26 th

Along with your annual dues, you need to maintain a current membership in the **Academy of Model Aeronautics**. If you are not yet an AMA member, you can sign up by calling 765-267-1256 or visiting www.modelaircraft.org online.

Glendale Field R/C Flyers

Application for membership

A BRIEF HISTORY

This will be the 3rd year of opening the Glendale Private Field. The development of this field was started by the San Fernando Valley Radio Control Flyers Charter Club #152. In 2019 the club will enjoy its 69th year! We are thankful for the efforts of Willie Gardner/ deceased (field engineer), and past presidents George Finch/deceased, Jason Pakfar, Chuck Thompson and Benny Elkouby for their administrative efforts to bring this field to life. The intent of the Glendale Club is to imple-

ment and establish an 'AMA only' flying site for its members. This means to fly at Glendale Field you must be a member of that club and an AMA member. You must abide by the AMA flying site rules at all times in order to maintain your club membership. As a member, when flying, the Glendale Field membership card must be displayed on your person at all times in order to be a flying pilot at this field. Your guests and family are not allowed to fly. If this rule is not adhered to your membership will be terminated.

Flight venue is limited to .40 size nitro and electrical fixed wing, helicopters and small drones. No FPV aircraft or racing airplanes are allowed. Limit your altitude to 400 feet and stay within the field borders. NO FLYING OVER THE FREEWAY

Benefits of Membership Include:

Access to a private field where all field and flight rules have to be adhered to. Free flight instruction (at the Apollo XI field location only). We use our Club trainer airplanes, radios, and fuel...you provide the enthusiasm! Free Annual BBQ (at Apollo XI field) & Club-subsidized End-of-Year Holiday Party & Award Presentation. Club Meetings including

Show-And-Tell, Model-Related Programs & Presentations, and a Monthly Raffle.

RC eNews – Timely and informative email messages about upcoming events, field closure notices and more.

The Valley Flyer - the club's official newsletter.

Website - Access at :www.valleyflyers.club

Membership Dues

Please fill out and sign the membership application. Send the application with a check for Make check (\$60) payable to San Fernando Valley R/C Flyers) and mail to Valley Flyers Membership, PO Box 16188, Encino, CA 91416.

Alternately, you may bring your application to a Club meeting (conducted every 4th Tuesday).

Prospective Members and Guests are always welcome and invited to Club meetings, which are combined Glendale and Valley Flyer members.

Apollo XI Field Flying Regulations

This facility is designed to accommodate four general types of powered remotely controlled aircraft in separate areas of the park.

1. Radio controlled heavier than one pound on the main runway.
2. Radio controlled one pound or less & R/C gliders North of the pit area.
3. Radio controlled helicopters South of the pit area
4. Control line flight in the designated Control line circles

This facility does **NOT** accommodate free flight aircraft, Kites, rocketry of any kind: R/C cars or R/C trucks.

Radio Control Flight Rules

1. All pilots must fly from one of the designated pilot stands.
2. The frequency board will be used at all times and pilots must post their frequency usage with a card or I.D that contains their name or picture I.D.
3. Open flying is restricted during scheduled events.
4. No take offs and landings from the pit area, taxiways, or grass.
5. 400 feet maximum flying altitude.
6. Take-off and landings to be in the same direction according to the wind.
7. Down-wind passes over the runway are prohibited when other aircraft are flying.
8. Some sort of fuel recovery system must be used when fueling planes to avoid spillage.
9. All pilots will follow taxiways directions as posted.
10. Pilots will call out their intentions (landing, take-off, etc) and clear the runway quickly.
11. There shall be no flying during facility mowing operations
12. Flying over the Golf course, access roads or public roads is prohibited.
13. Each type of aircraft must fly and pit within the area designated on the map for that type of vehicle. Fixed wing aircraft will have a standard left or right pattern depending on the wind.

Failure to comply with these regulations may result in a citation, loss of flying privilege or both.

*****Pilots please note, the Field is closed to open flying during all Valley Flyers Events.***

Pilots must check-in to participate. A valid VF Club membership and/or AMA membership is required.

Become a member, visit www.Valleyflyers.com for more information. 2/2013

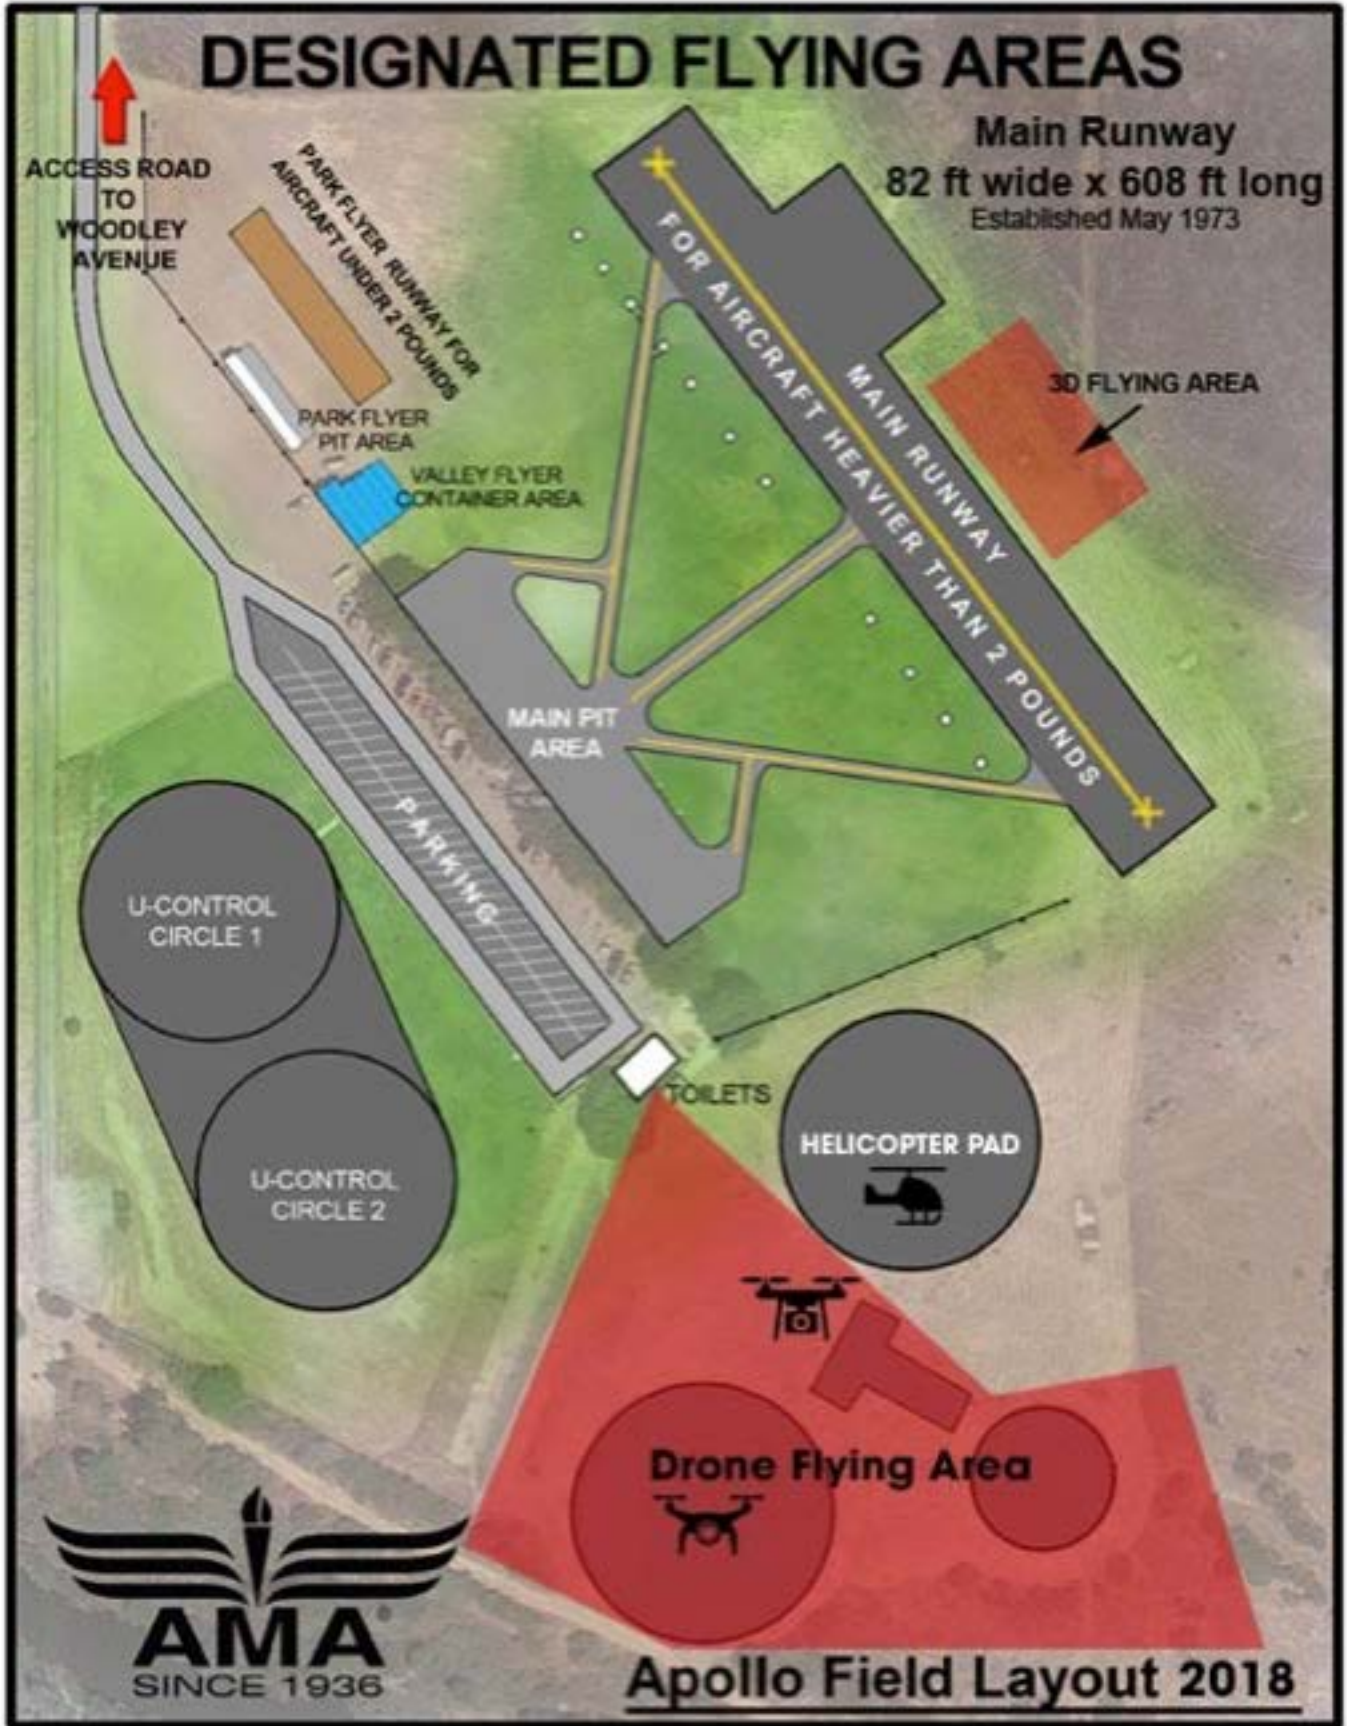

ADDENDUM TO RULES AND REGULATIONS

- 1) Fly from the designated flying areas, no taxi way take offs please to prevent low pass collisions.
- 2) Fly on the runway side with the other flyers, to communicate with each other.
- 3) Call your intentions-Taking Off, Landing, ***Remember Landings have priority.***
- 4) Fly the pattern everyone else is flying, unless you communicate with each other.
The first one out flying dictates direction, or wait til he is finished.
- 5) 3 D stunt flying should be done ***off*** the runways to avoid mid air collisions.
- 6) stay within the boundaries as much as possible to avoid mid air collisions.
- 7) Most of all: new pilots at the airfield, If you think you might need help a lot of us are there to assist you, so you don't crash your plane, or crash into some one. Working on your planes, make sure some one is helping you, I've seen too many times propeller cuts to the pilot or bystander.

The following is being proposed as an addendum to the bylaws within ARTICLE III SECTION III REGULAR MEETINGS

To insure meetings are conducted in a way that the President or 'meeting coordinator' has control of who is speaking and for how long, the board of directors is authorizing the 'meeting coordinator' to have complete control of guests that want to speak. If the 'meeting coordinator' anticipates or determines that the guest's subject matter needs to be deferred to the 'board' meeting, he or she, the 'meeting coordinator', is authorized to interrupt the guest from speaking and advise that their discussion will have to be deferred for a board meeting. The 'meeting coordinator' is also authorized to stop the discussion in it's entirety, based on their judgment, determining that the subject is not appropriate for the general meeting, without any explanation or justification.

Any Valley Flyer member in good standing can ask the 'meeting coordinator' to invoke his or her right
