We are still encountering a few problems out at the field. We have new pilot which "Welcome to the club".

Pilots that fly in the Park Flyer area, you need to stay in the cone area

I know there is over lap in the north corner, so watch out for planes flying on the main runway area. Watch all around. Stay out of the golf course also, that's a cause for major complaints. Field ediquite and safety guidelines need to be followed, fly the direction the other pilots are flying, one plane going the wrong direction can cause a mid air accident.

Call all take offs and landings. Landings have priority over any take offs. Fly from the designated flight areas, each area has standing areas. People like to fly at the south end of the park area which is like playing on the 405 freeway, trust me if a plane hits you in the head it will effect the shape of your head. When working on your plane have some one help you especially if your are working on and it is pugged in. Those props hit your hand it will end your day go-

ing to the hospital. They will cut down to the bone. Don't fly into or over the pit areas. Drinking of alcoholic beverages is strictly prohibited. Your flying along with your driving is impaired. This is a big safety concern. You don't want to hurt someone and you want to be thinking clearly. Remember these are not toys. The Quad Boys--- You need to fly in the designated area, which is at the south side of the field, not exceeding Woodley Ave Bike Path, Burbank Blvd Bike Path, and once again the Van Nuys Golf Course property. You can be cited by the authorities, and I hear it can be quite expensive. So why do it?? Everyone deserves to enjoy themselves. Last thing our height limit is 400 ft, try to obide by it. We don't need the Van Airport Police coming by. I will try to put out a list of the safety guidelines the following month. Lets fly safe, if there is a problem let the safety committee handle it.

Request:

People that get a new club membership and are requesting flight training- I need to be emailed in advance so I can have a training plane ready.

Safety.

Quadcopters need to flown in the Heli area and flown in the field area, I'm observing FPV flight without a spotter, some one needs to be in line of sight when these are flown. That is a FAA rule. Too many times I'll ask where is your quad, and I get a reply of "I don't know." Remember safety first. Height limit is 400 ft, yielding for scale aircraft at all times. The height limit is for all aircraft.

BIG CAUTION:

Landings have priority over take offs!!

If you are waiting to take off, hold your position off the runway ***until called landings are completed.***

HEIGHT RESTRICTIONS

We have been getting complaints about planes exceeding designated height limits of 400 feet.

Jets going vertical easily exceed 400feet. In addition 3D airplanes doing maneuvers also exceed these height re

Mike Stoner

VP, Safety Committee

Special thanks to **Jenaro Balanezo** for generously donating six gallons of Powermaster fuel, to the Club.

The gift will be used in our regular events that are coming up this year. These would be our Try-N-Fly, and our training flights etc.,

Thanks Jenaro!

NOVEMBER RAFFLE

AT THE TUESDAY NOVEMBER 23RD CLUB MEETING

SEAGULL SPACEWALKER II

FEATURES

Construction: All balsa and plywood

Wing: Bolt-on two-piece, aluminum wing joiner

Aileron Control: Dual servo

Cowl: Painted fiberglass

Covering: High quality heat shrink covering, color scheme is red and beige

Canopy: Clear, removable for easy access to electronics, painted pilot bust

Spinner: Red plastic 2.3" (58mm)

Engine Mount: Two-piece composite Motor Mount: Plywood

Landing Gear: Main, prebent aluminum, tail gear, spring loaded with 1" (25.4mm) tailwheel, two 2.5" (63.5mm) main wheels

Fuel Tank: Approximately 10oz (295cc)

REQUIREMENTS

Radio: 4-channel with four servos for electric power, one throttle servo if using glow power

Glow Power; Engine: .46-.55 cu in (7.5-9.0cc) 2-stroke .52-.61 cu in (8.5cc) 4-stroke

Receiver Battery: 4.8-6V / 800-1200mAh NiMH

Glow fuel, prop, glow starter,

Electric Power; Brushless Motor: Rimfire .46-.55

ESC: 50-70A brushless compatible

Battery: 4000-5000mAh LiPo battery Battery Charger: Compatible with selected battery

Prop to match selected motor

SPECIFICATIONS

Wingspan: 63.31" (1604mm) Length: 48.1" (1224mm) Flying Weight: 5.7 - 6.6lbs (2.6 - 3.0kg)

Wing Area: 581 sq in (37.5 sq dm) Wing Loading: 24.41 oz/sq ft (74.5g/sq dm)

Airfoil: NACA

VICTORIO'S PIZZA

10901 VICTORY BLVD
NORTH HOLLYWOOD, CA 91606
(818) 762-9000

THE PRICE PER PERSON IS \$25.00. PLEASE CALL ME AT 661-298-2614 TO MAKE RESERVATIONS OR EMAIL ME AT :
bobthesmith2003@yahoo.com

Please prepay and send check(s) payable to the Valley Flyers, to Bob Smith 26639 Purple Martin Ct, Canyon Country, CA 91351.

Indicate on the notes or separate paper selections of Beef, Chicken or Fish (salmon) for each party member.

Sincerely, Bob Smith

2015 YEAR END EVENT OFFICIAL'S DRAWING

Tuesday, November 24th will feature the year end drawing for members that supported the club this year in events and field maintenance activities. There will be a copy of the individual 'officials list for 2015' at the October and November meeting. If you were an event official this year and are not on the list, it means you are not a paid member in the club (or I made a mistake). If you know you will be 'unable' to attend the November meeting, email me at bobthesmith2003@yahoo.com or

call me @ 661-298-2614 and advise me of who will select prizes for you (be your proxy). If you do not advise me of whom your proxy is, you cannot have another member select for you without advising me that they are your proxy!

Any member stating they are picking for someone that is not present and the non-present person has not advised me that they have a proxy, will be denied the privilege of selecting/taking a gift for that person! I will announce who

the proxies are at the beginning of the selection. The only exceptions to this are 'family' members. I.e. wives, husbands, daughters and sons.

I will be the default proxy for members during the small prize drawing that have NOT notified me of another member!

Good luck!

Sincerely, Bob Smith

SEPTEMBER 20TH EVENT REPORT

The **2015 BBQ Fun Fly** is in the books.

Thanks to Austin Strauss, Benny Elkouby, Mike Stoner, Sharon Riberdy, Wayne Longo for their all day service and Tena and

Tony Aguila and Dave Sweany for their food services. It was a hot day and you all endured!

Mike's tri tip was a hit and for once I didn't see meat in the trash! We had 46 entries for the

event of which only 2 were not Valley Flyers. Forty six members were served beef and 28 for chicken.

Thank you to all those members that pre-registered!

VALLEY FLYERS FOUNDATION

The Valley Flyer Foundation was established as a separate entity from the Valley Flyers to enable donations to be claimed as a charitable deduction. The Foundation has its own board of directors with separate financial accountability. The other purpose of the Foundation is to insure funds collected and donated for specific field projects are separate from the Valley Flyers account.

The office term as designated by the Foundation is scheduled

to last for 5 years. The plan is to have members have their terms end in staggered years, so everyone isn't vacating the position at the same time.

The 2015 board is as follows; Chuck Thompson President, Winston Brown Treasurer, Bob Smith Vice President, Dave Sweany Secretary and Adam Gelbart Public Relations.

There is a lot of work to be done. I think we at one time had bylaws but their current location is unknown. The Foundation needs

to be identified by a link on the Valley Flyer website. Documenting who the foundation members are with contact information, what the mission statement is and forms defined on the web site to enable individuals to document their donations.

If you have questions on the subject call me at 661-298-2614 or email me at bobthesmith2003@yahoo.com.

Sincerely, Bob Smith

DONATIONS TO THE CLUB/OCTOBER 2015

Phillip Maryatt	\$20.00
Bob & Candy Adams	\$5.00
Paul Jessel	\$20.00
Scott Ramos	\$15.00
The Doctor	\$20.00
Total	\$80.00

These donations will be passed on to the Foundation to support field projects and purchases.

THANK YOU FOR YOUR SUPPORT!

Bob Smith, Treasurer

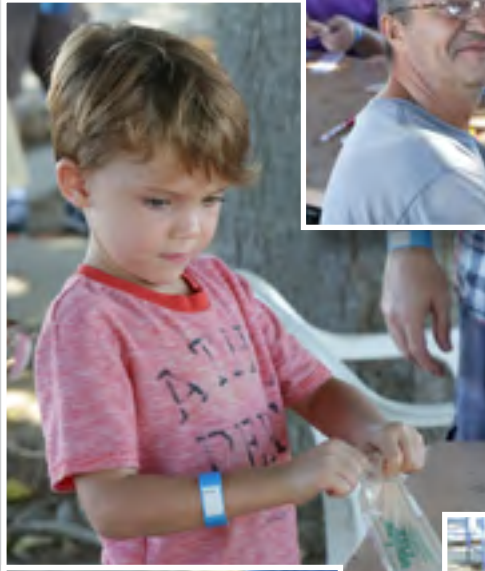

Valley Flyer Field Projects

The following is a report on Valley Flyer field projects. If you would like to contribute your time to help support projects, email me back at bobthesmith2003@yahoo.com with your name and which projects you can help with. Contact the team lead via email if you have any questions.

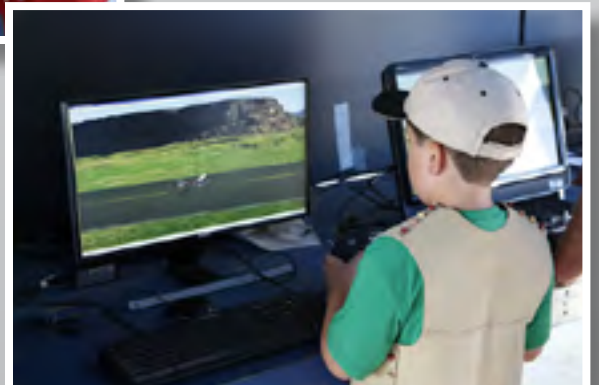

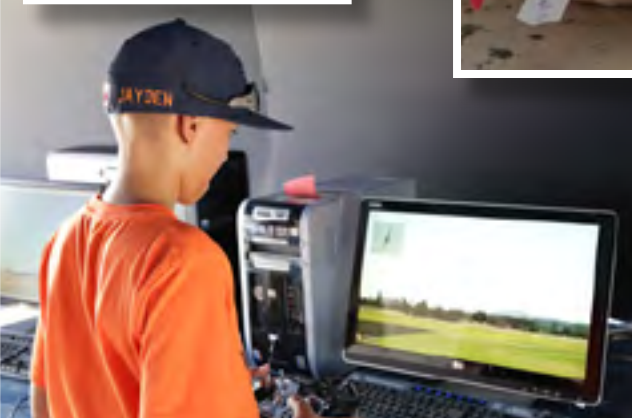

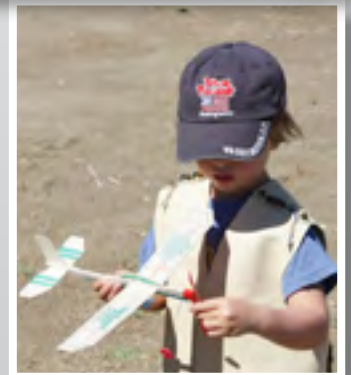

Best Regards, Bob Smith

U.S. announces task force to develop drone registry

Mon, Oct 19 2015 | 01:29

By David Morgan

WASHINGTON (Reuters) - The Obama administration said on Monday that it would require drone owners to register their unmanned aircraft as part of an effort to curtail rogue drone flights that pose a danger to commercial aircraft and crowded public venues.

U.S. Transportation Secretary Anthony Foxx announced the creation of a task force of private sector and government representatives to craft recommendations for establishing the first ever federal drone registry.

The recommendations are due by Nov. 20, and administration officials hope to have the registry in place before Christmas, when they say that more than 1 million new drones could be given as gifts to new untrained operators. The registration requirements would also apply to drones already in use.

The initiative represents the ad-

ministration's effort to address the rising number of unauthorized drone sightings near airports and crowded public venues. The FAA has reported more than 650 unauthorized drone sightings so far this year, as of Aug. 9, compared with 238 for all of 2014. If sightings continue at that rate, the number would near 1,100 by the year end.

"The signal we're sending today is that when you enter the national air space, it's a very serious matter," Foxx said. As part of a parallel effort, the Federal Aviation Administration is also working with other agencies to develop systems that can identify and track drones or keep them away from vulnerable sites.

ADVERTISEMENT

Drone industry representatives welcomed the notion of having a mechanism to promote accountability, but questioned whether a new registry could be in place in such a short timeframe and

said the government's authority to compel participation remained unclear.

Officials said the FAA has authority to impose registration under aviation safety laws.

"It's going to be a very difficult task to do by Nov 20. But the best course of action is to look at this and say, let's do the best we can," said Michael Drobac, executive director of the Small UAV Coalition, one of two drone industry group on the task force.

Other task force members represent airline pilots, airport officials, hobbyists and the consumer electronics market.

Foxx said the registration effort would not delay the FAA's goal of publishing rules for commercial drone use by next June.

65 YEARS OF SERVICE

Dear Model Aircraft & Radio Control Enthusiast,

Thank you for your interest in Model Aviation. The San Fernando Valley Radio Control Flyers (SFVRCF) is Academy of Model Aeronautics Charter Club #152, and in 2015 the club will enjoy its 65th year! Joining the Valley Flyers is a great way to support the hobby while enjoying the rich, educational benefits and camaraderie that Club membership can bring.

The main emphasis of the Club is the promotion of model aviation, to maintain the Apollo XI field both physically and politically for model aviation, and to promote good fellowship and community relations. With your membership, you support the many Apollo XI field improvements and community relations projects the club is championing.

Benefits of Membership Include:

- Free flight instruction. We use our Club trainer airplanes, radios, and fuel... You provide the enthusiasm!
- Free Annual BBQ & Club-subsidized End-of-Year Holiday Party & Award Presentation & FREE Fun Fly Events.
- Club Meetings including Show-And-Tell, Model-Related Programs & Presentations, and a Monthly Raffle.
- RC eNews – Timely and informative email messages about upcoming events, field closure notices and more.
- The Valley Flyer – The club's official newsletter.

Please fill out and sign the membership application. Send the application with a check for the membership dues (make check payable to **The Valley Flyers**) to Valley Flyers Membership, PO Box 2055, North Hills, CA 91393. Alternately, you may bring your application to a Club meeting, or sign up using PayPal® at www.valleyflyers.club online.

Prospective Members and Guests are always welcome and invited to Club meetings. Your support is greatly appreciated.

Sharon Riberdy, Membership Director
sriberdy@msn.com
 818-621-4799

Along with your modest annual dues, you need to have a current membership in the **Academy of Model Aeronautics**. If you are not yet an AMA member, you can sign up by calling 765-287-1258 or visiting www.modelaircraft.org online.

SFVRCF Club Meetings

Club meetings are held on the 4th Tuesday of each month at **7:00 PM**. Refreshments will be available. Please bring a couple of extra dollars for refreshments and raffle tickets if you so desire.

2015 Club Meeting Schedule			
January	27 th	July	28 th
February	24 th	August	25 th
March	24 th	September	22 nd
April	28 th	October	27 th
May	26 th	November	24 th Annual Workers Raffle
June	23 rd	December	TBD Holiday Party

The SFVRCF is Academy of Model Aeronautics (AMA) charter club # 152, and as a charter club all members of the SFVRCF must be members in good standing with the AMA. Failure to become an AMA member or to keep your AMA membership current will void your SFVRCF membership. Your AMA membership is verified each year when you renew your club membership. SFVRCF members are expected to abide by club bylaws, Academy of Model Aeronautics rules, Apollo XI field flying regulations, and normal standards of conduct and courtesy.

Apollo XI Field Flying Regulations

This facility is designed to accommodate four general types of powered remotely controlled aircraft in separate areas of the park.

1. Radio controlled heavier than one pound on the main runway.
2. Radio controlled one pound or less & R/C gliders North of the pit area.
3. Radio controlled helicopters South of the pit area
4. Control line flight in the designated Control line circles

This facility does **NOT** accommodate free flight aircraft, Kites, rocketry of any kind: R/C cars or R/C trucks.

Radio Control Flight Rules

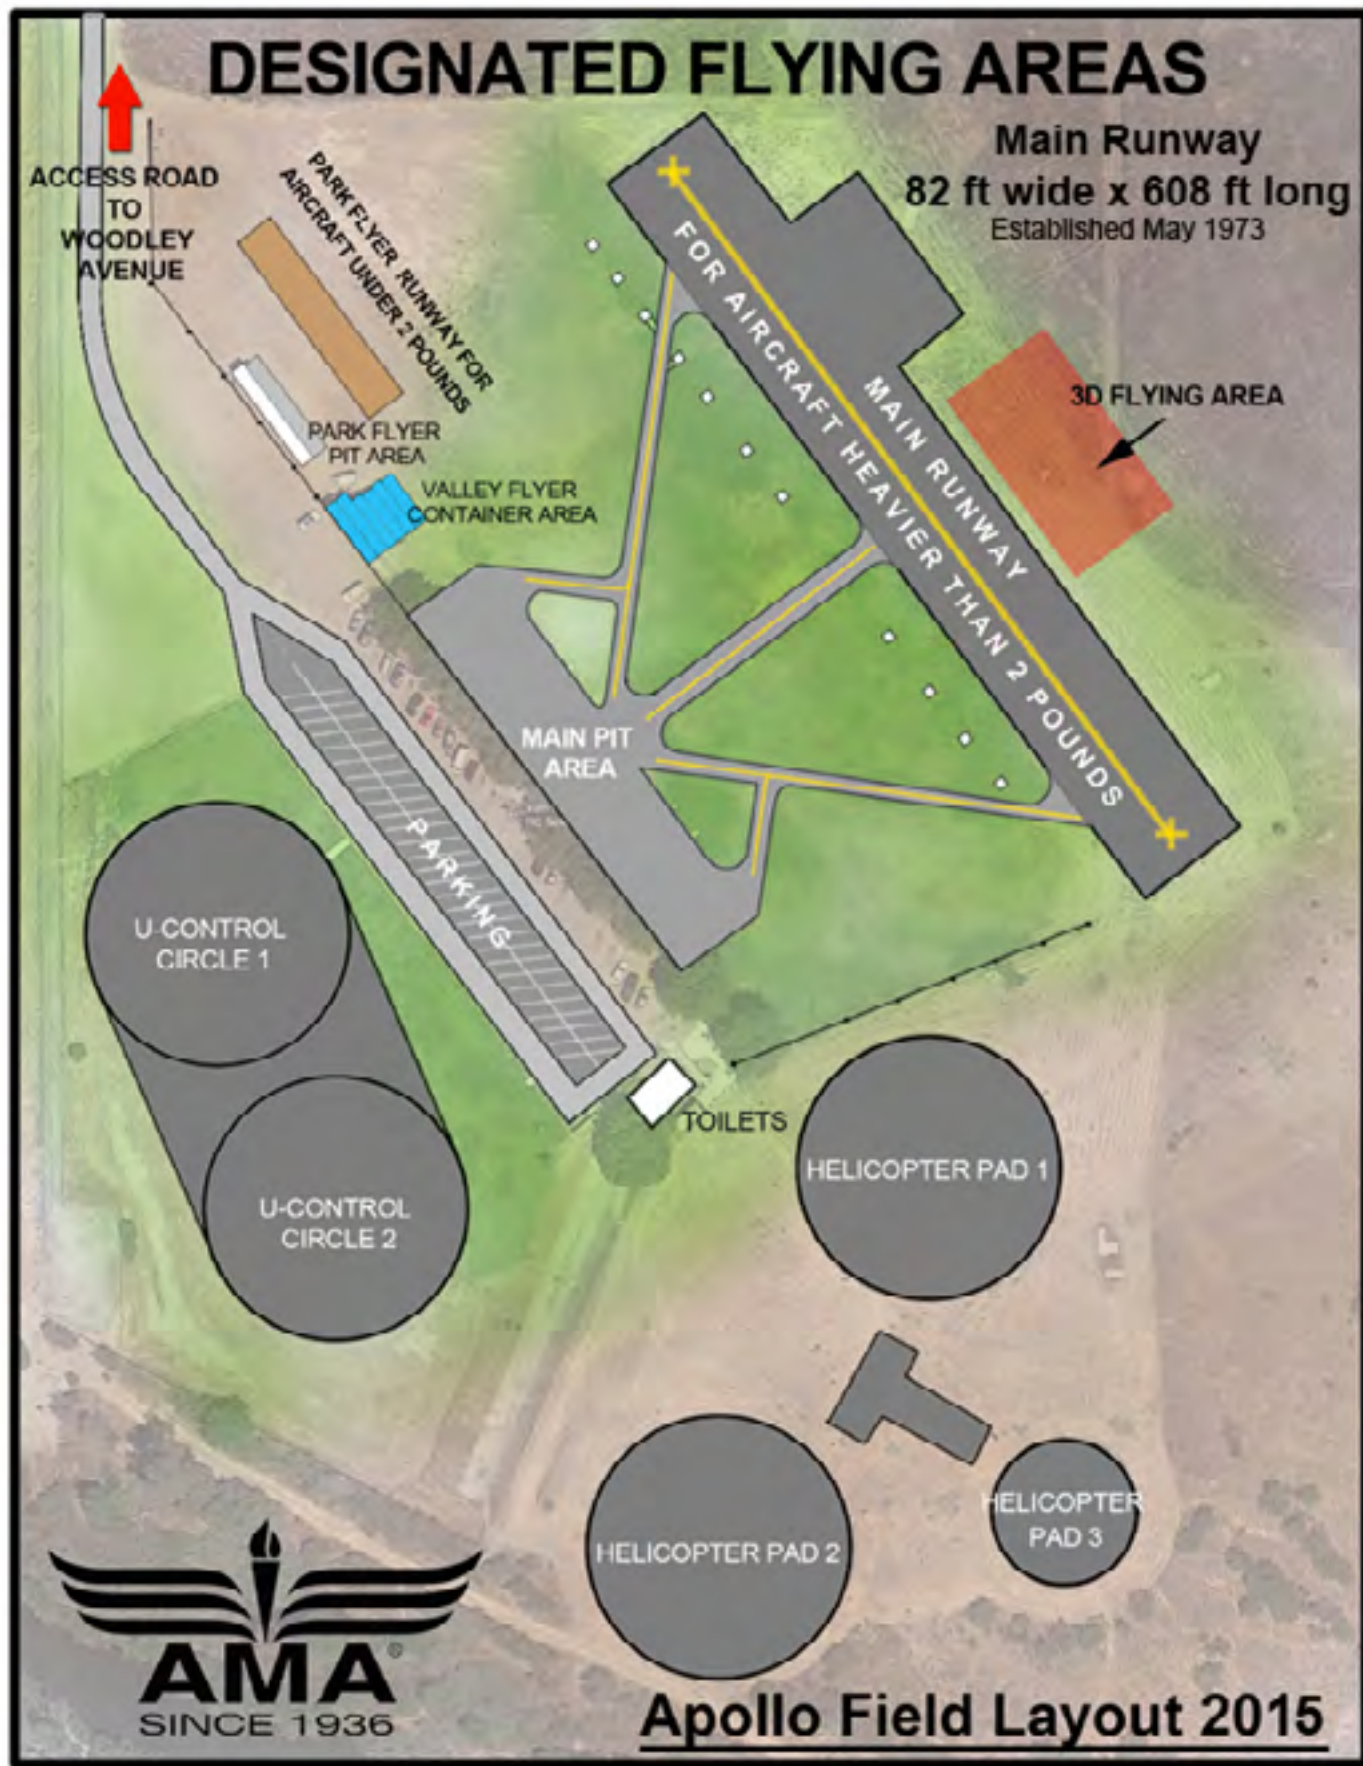

1. All pilots must fly from one of the designated pilot stands.
2. The frequency board will be used at all times and pilots must post their frequency usage with a card or I.D that contains their name or picture I.D.
3. Open flying is restricted during scheduled events.
4. No take offs and landings from the pit area, taxiways, or grass.
5. 400 feet maximum flying altitude.
6. Take-off and landings to be in the same direction according to the wind.
7. Down-wind passes over the runway are prohibited when other aircraft are flying.
8. Some sort of fuel recovery system must be used when fueling planes to avoid spillage.
9. All pilots will follow taxiways directions as posted.
10. Pilots will call out their intentions (landing, take-off, etc) and clear the runway quickly.
11. There shall be no flying during facility mowing operations
12. Flying over the Golf course, access roads or public roads is prohibited.
13. Each type of aircraft must fly and pit within the area designated on the map for that type of vehicle. Fixed wing aircraft will have a standard left or right pattern depending on the wind.

Failure to comply with these regulations may result in a citation, loss of flying privilege or both.

*****Pilots please note, the Field is closed to open flying during all Valley Flyers Events.***

ADDENDUM TO RULES AND REGULATIONS

- 1) Fly from the designated flying areas, no taxi way take offs please to prevent low pass collisions.
- 2) Fly on the runway side with the other flyers, to communicate with each other.
- 3) Call your intentions-Taking Off, Landing, ***Remember Landings have priority.***
- 4) Fly the pattern everyone else is flying, unless you communicate with each other.
The first one out flying dictates direction, or wait til he is finished.
- 5) 3 D stunt flying should be done ***off*** the runways to avoid mid air collisions.
- 6) stay within the boundaries as much as possible to avoid mid air collisions.
- 7) Most of all: new pilots at the airfield, If you think you might need help a lot of us are there to assist you, so you don't crash your plane, or crash into some one. Working on your planes, make sure some one is helping you, I've seen too many times propeller cuts to the pilot or bystander.
