

THE VALLEY FLYER

SAN FERNANDO VALLEY FLYERS NEWSLETTER CLUB 152

A MESSAGE FROM OUR PRESIDENT

The word for the month is HOT. We are in the middle of summer and there's no mistaking it. Please keep yourselves hydrated when out at the field. Keep an eye on some of our older visitors as well. We're also entering into a higher fire danger. Watch for equipment overheating.

Ok, enough of that. This Month we have our annual Barbeque on Saturday, August 15th. This even is free to members and 1 guest, and will include lunch. Come out, hang with fellow members, bring a friend and have a great day.

I want to say thanks to Mario, Paul, Terry and Steve for their help with trimming the trees. It's volunteer work like this that makes the Apollo XI field such an enjoyable place to fly. Finally, I would like to organize a crack repair party. We have the crack repair equipment and supplies. A couple of us will work on killing the weeds in the cracks so we can have a good base for the repairs. I am looking at starting around the 20th of August and would like to complete the work by the end of the month. The work will be done on weekdays to help minimize disruption to flying.

Please reach out to me at president@valleyflyers.com if you have availability during the last couple of weeks of the summer.

A Letter from your Editor

Well all I can say is Goodbye, I hope meeting me was as , much of an enjoyment for you as it was for me. With special enjoyment with the few who know who you are. I will miss you all, you all hold a special place in my heart and my time in LA. It was a memorable one becoming a Board Member of the San Fernando Valley RC Flyers. A moment in time that I am most proud of. I hope that the feelings are the same for the many of you there are.

Sincerely,
Lori Power Newsletter Editor 2022-2026

Weather Cancellation Policy

San Fernando Valley RC Flyers – Apollo XI Model Airfield

Purpose

This policy establishes clear guidelines for cancelling or postponing San Fernando Valley RC Flyers events due to inclement weather or unsafe field conditions. The goal is to ensure the safety of participants, protect equipment and property, and provide clear, timely communication.

1. Safety First

The safety of pilots, volunteers, and spectators is our highest priority.

Any weather conditions posing a significant risk to health, safety, or equipment will result in delay, suspension, or cancellation of the event.

2. Weather Monitoring and Notifications

The Contest Director/Event Manager will begin monitoring weather forecasts at least 3 days prior to the event using trusted sources such as:

- National Weather Service (weather.gov)
- Local radar and forecasts
- AirNow.gov (for air quality)
- NOTAMs:

<https://www.aopa.org/destinations/airports/KVNY/details#notam>

- Updates will be reviewed daily leading up to the event, and more frequently as the event approaches.

3. Cancellation Thresholds

Events may be cancelled or delayed under the following conditions:

Condition Rain Wind Lightning Heat Index Air Quality Field Conditions
NOTAMs Recs and Parks Activities

4. Decision Timeline

Threshold for Cancellation or Delay

Forecasted sustained rainfall during the event window, Sustained winds > 25 mph or gusts > 30 mph,

Lightning within 10 miles of the field (wait 30 mins after last strike), 105°F or above, when Heat Warning is issued AQI above 150 (Unhealthy) Floods, Fires, and other unsafe conditions FAA notification of closed airspace , Closure notices from the Dept of Recs. & Parks

hours before the event if there is weather uncertainty.

later than 6 hours before the event start time, unless sudden a same-day cancellation.

- Initial advisory: Sent 48
- Final decision: Made no weather changes require
- For on-site changes (e.g., lightning or wind surges), the event may be paused or terminated at any time.

5. Communication Plan

All cancellations or schedule changes will be communicated through: - Club email list

- Official website: [Insert URL] - Social media (Facebook, Instagram)

A notice will include the reason for cancellation, time of update, and any reschedule plans. For large events, a phone hotline may be activated or monitored.

6. Rescheduling & Refunds

- If an event is cancelled, organizers will attempt to reschedule when possible.
- Prepaid entry fees may be refunded or rolled over to the rescheduled event at the discretion of the Event Committee.
- Vendors or sponsors will be contacted individually to coordinate alternative arrangements.

7. On-Site Contingency Plans

If weather deteriorates during an event:

- A temporary suspension may be enacted (e.g., for nearby lightning).
- Participants will be directed to safe shelter locations, such as under shade structures or in vehicles.
- In case of full cancellation, a safe and orderly shutdown procedure will be followed.

8. Authority

The Contest Director/Event Manager, with consultation from club officers and/or safety officers, holds the authority to cancel or suspend an event. Their decisions are final.

Field Manager

Duties

Monitors the physical condition of the field and reports to the Board of Directors and the members. Maintains an open dialouge with the City of Los Angeles, Department of Recreation and Parks. Recieves estimates for any field improvement projects. Responsible for the construction and maintenance activities at the field. When possible make reports for the newsletter.

Secretary

Will keep the meeting minutes in the books provided for that purpose and will be custodian of corporate documents. Keep a register of the addressess of the members. Which the membership director will supply. In general, all the duties that are assigned by the president or the board. Give meeting minutes and any reports to the newsletter editor.

PUBLIC RELATIONS DIRECTOR

Public Relations officer duties are to keep log of t-shirts, trophies, etc. They can get funds for new items. Maintain video library. Contact newspapers and other media advertising of events. Update AMA of events. When possible make article for newsletter.

AS SOON AS POSSIBLE.

NEWSLETTER EDITOR

The editor will be in charge of the monthly newsletter, which shall be issued to the members. The editor also helps in anyway they can, at events they take pictures for the newsletter, get meeting minutes for the newsletter, from the Secretary. Post all donations and events.

HOSPITALITY CHAIR

Provides:

- Refreshments and snacks for the events and meetings;***
- Coordinates concession stands at club fiels events***

Monies for purchases shall be requested from the Treasurer. Profits from the events shall be remitted to the Treasurer. When possible, make reports for the newsletter.

TECHNICAL DIRECTOR

This positio0n will provide support, upon request, to the field manager and Electric Director. Maintains the charging stations at Apollo XI & Glendale fields along with the radio links that keep them reporting weather and voltage conditions to the internet and website. Assist in the maintenance of the camera security systems at both fields. Report anything that might be interesting to the Newsletter Editor, PLEASE!

CLUB CLEAN UP DAYS

Make a positive impact! Volunteer for Clean-Up Day and keep our field beautiful. Bring your gloves and we provide the tools. Come for 1 hour or stay the whole time.

The Third Friday of Each Month
8 am to 11 am

Feb. 20, Mar. 20, Apr. 17, May 15,
Jun. 19, Jul. 17, Aug. 21, Sep. 18,
Oct. 23, Nov. 20, Dec. 18

ATTITUDE

The longer I live, the more I realize the impact of attitude on life. Attitude, to me is more important than facts. It is more important than the past, than education, than money, than circumstances, than failures, than successes, than what other people think or say or do. It is more important than appearance, giftedness, or skill. It will make or break a company, a church, a home. The remarkable thing is we have a choice every day regarding the attitude that we will embrace for that day. We cannot change our past. We cannot change the fact that people will act in a certain way. We cannot change the inevitable. The only thing we can do is play on the one string that we have, and that is our attitude. I am convinced that life is 10% what happens to me and 90% of how I react to it. And so it is with you.....

We are in charge of our attitudes....

Now Open!

Federico Arzilli our trainer, he can be reached by text at 818-395-6331

To All Students:
"Before your flight, take a deep breath and focus. Try to forget about your emotions. Flying is not about emotions. Flying is about control. Predict and think before executing the next maneuver. You are in control."

Let Training Begin!

Drone Area

Drone Area

Drone Area

Drone Area

We want to thank you all in the drone area for the fabulous job that you have done in making it look

FABULOUS

special thanks to BERT W.

AS AN AMA MEMBER I AGREE:

- I will not fly a model aircraft in a careless or reckless manner.
- I will not interfere with and will yield the right of way to all human-carrying aircraft using AMA's See and Avoid Guidance and a spotter when appropriate.
- I will not operate any model aircraft while I am under the influence of alcohol or any drug that could adversely affect my ability to safely control the model.
- I will avoid flying directly over unprotected people, moving vehicles, and occupied structures.
- I will fly Free Flight (FF) and Control Line (CL) models in compliance with AMA's safety programming.
- I will maintain visual contact of an RC model aircraft without enhancement other than corrective lenses prescribed to me. When using an advanced flight system, such as an autopilot, or flying First-Person View (FPV), I will comply with AMA's Advanced Flight System programming.
- I will only fly models weighing more than 55 pounds, including fuel, if certified through AMA's Large Model Airplane Program.
- I will only fly a turbine-powered model aircraft in compliance with AMA's Gas Turbine Program.
- I will not fly a powered model outdoors closer than 25 feet to any individual, except for myself or my helper(s) located at the flightline, unless I am taking off and landing, or as otherwise provided in AMA's Competition Regulation.
- I will use an established safety line to separate all model aircraft operations from spectators and bystanders.

May Membership Stats

There are currently 197 active club members. In the month of May June, we had 9 first time memberships started. Membership enrollment has been increasing due to the events we have been having.

Welcome First Time Members

Ryan Sedighi	Randy Shafer	Michael Sitts
Andrew McLaughlin	Reginald Casiano.Olaes	Chad Russell
Raymond Hairapatian	Bruce Farrar.	Jason Farrar

2026 Membership Cards

All members who renewed online through June 28, 2026 have been processed and cards have been shipped If you have applied in 2026 and not received your card please email membership@valleyflyers.com or text Celeste at 818-300-3098. You may have a pending issue with AMA membership.

Membership Price Increase

Due to the rising costs of operating the club, it was agreed by the Board of Directors to increase the membership fee by \$10 to \$45 for the Apollo XI field and to \$75 for the Apollo XI + Glendale Field. Youth prices will be \$10 for Apollo XI field and \$35 for Apollo XI +Glendale Field

NEW Glendale Members

If you have enrolled or renewed for use of the Glendale field, you will be receiving an email from EnterpriseMasterVault.com with the code to the lockbox at the entrance of the field. Your code is good until either your AMA expires or the end of our current flying season which is 12/31/2026. A membership card with a "G" code will be sent to you in the mail. It is good to have your card with you when you go to fly, but it is not required.

Enrollment Activities

If you would like to volunteer to help grow membership or you know people who are interested please contact me at membership@valleyflyers.com or direct them to sign up online at <https://valleyflyers.com/membership-apollo-xi.html>. We need people who can assist with photography or videoing events for social media.

Events

We have programmed many fun events for this year for those of you who may be new to flying, have a competitive streak, or just like to hang with other avid RC flyers and builders. Only active members who register for the event will be able to fly that day, they usually run from 9 am to 4 pm.

You can check out the upcoming events calendar at this link: <https://www.valleyflyers.com/menu1/column1/listing2>

New Flyers Needing Instruction

If you would like to learn to fly, please contact our Training Director, Federico Arzilli by texting him at: 818-395-6331.

He will be at the Apollo XI Field every other Sunday of each month from 10 am to 2 pm. You will find him near the containers. Please text him prior to reserve your space. He will organize group flying lessons with you and other new flyers.

Come practice on our flight simulator and check out our training planes during this time.

HAPPY BIRTHDAY

July Birthdays

Jody Abrahamson	Mike Callas
Steven Danny	Michael FritzMaurice
Ashner Gochman	Paul Hession
Joesph Narans	Leonard Polan
Scott Ramos	Michael Sitts
Francisco Toro	Styephen Veres
Ken Wright	

Hope to meet you all on the field soon. 😊

SAFETY MESSAGE

Pilots that fly in the Park Flyer area, you need to stay within the cone areas. I know that there is an over lap in the North corner, so watch out for the planes flying on the main runway area. Watch all around. Stay out of the golf course area also, this is a cause for major complaints. Field etiquette and safety guidelines need to be followed. Fly in the direction the other pilots are flying, one plane going in the wrong direction can cause a mid-air collision. Call all take-offs and landings.

LANDINGS HAVE PRIORITY OVER TAKE-OFFS

Fly from designated flight areas, each area has a standing area. When working on one's plane have someone help you especially if you are working on it and it is plugged in. If those props hit your hands, it will be the end of your day – as you are going to the hospital. They can cut down to the bone. Don't fly into or over the pit areas. Drinking of alcoholic beverages is strictly prohibited. Your flying along with your driving are impaired. This is a huge safety concern. You don't want to hurt someone and you need to be thinking clearly. Remember these are not toys.

THE QUAD BOYS

You need to fly in the designated area, which is at the South side of the field, not exceeding Woodley Ave, the bike path, Burbank Blvd. bike path, and once again the Van Nuys Golf Course property. You can be cited by the authorities, I hear it can be pretty expensive, so why do it???? Everyone deserves to enjoy themselves. The last thing our height limit is **250 feet** with a South wind and **100 feet** with a North wind, try to abide by it. We don't need the Van Nuys Airport Police coming by. Let's fly safe, if there is a problem let the Safety Committee handle it.

REQUEST

People that get new memberships and are requesting flight training. Please contact Arthur Bolukbasi at trainingdirector@valleyflyers.com, so we can have a plane ready for you.

SAFETY

Quadcopters need to be flown in the Heli and field areas. I am observing FPV flight without a spotter, someone needs to be in the line of sight when these are flown. This is an FAA rule!! Too many times I ask, "Where is your quad?" The response I get is "I don't know." Remember **SAFETY FIRST**. Height limit is **250 feet** with a South wind and **100 feet** with a North wind, yielding for scale aircraft at all times. The height limit is for all aircraft reverse pattern situations. Watch out for all scale aircraft approaching Van Nuys Airport from the South for landings, they come in. lower than you are use to. PLEASE stay out of their airspace, whatever height they approach at.

BIG CAUTION - LANDINGS HAVE PRIORITY OVER TAKE - OFFS

HEIGHT RESTRICTIONS

We have been getting complaints about planes exceeding designated height limits of **250 feet**. Jets going vertical easily can exceed **250 feet**. In addition, 3D airplanes doing maneuvers also exceed these height restrictions. Rec & Parks have started enforcing, no assisted viewing while flying quads. We can only warn and post signs, under the Mayor's Amendment. If caught by law enforcement, they can arrest you and confiscate your equipment.

I don't want to see this happen to anyone. So at this time: NO Flying with goggles, viewing monitor screens, iPads anything but your natural eye. Do you get the CLEAR picture.

SAFETY is done by informing people of this information. We all want to have fun and enjoy the field, but the way its going, with exceeding the height limit, sooner or later we will face field closure. That will be a really sad day, when the 75 year old airfield gets closed due to people disregarding common sense safety guidelines, to not interfere with scale aircraft landing, flying over the golf course, flying to close to the people on the bike path, flying where you are not suppose to fly. Causing a major fatality auto accident. WE NEED TO FLY SMARTER & SAFER within our field area.

MEETING MINUTES

SF Valley Flyers Board Meeting

July 8, 2026 6:30 pm

Meeting Attendees: Scott Ramos, Celeste Young-Ramos, Mario Sweet, Tony Aguila, Bert Magbunua, Tena Aguila.

Items of Discussion

Filming

Closing the field on Monday 7/13 from 4 PM to 9 PM.,also on Tuesday 7/14 from 8 AM to 1 PM. Donation for use of the field is \$3,000.00. Scott will be there to supervise.Scott posted signs and the filming company will have security guards.

Scale Event

Saturday July 11, 2026 is the Scale event- CD: ScottRamos, Burgers by Vice President -Tena Homme Scott requested 40 burgers he has prizes organized for a cost of \$75.00.

Fun Fly

Saturday July 25, 2026, Fun Fly CD- Mario Sweet, event starts at 10 AM Tena is cooking hot dogs art is free to members and \$30.00 to non members.

Reports

Treasury Report : Tony Aguila- Foundation checking Account is at \$5,950.93, the club is \$3,834.66. There is a\$200.00 reimbursement. Scott reported we will receive \$3,000.00 shortly for the recent filming.

Remote ID Discussion

Scott Ramos said our agreement in the documentation, the RID is basically identical to FRIA, with the exception of you have to be a member of the San Fernando Valley or a guest. And then you can fly there within the geographic bounds of the field without remote ID. The primary reason is, if they have remote ID, if they have FRIA at their home field, who's going to pay for a remote ID to come to an event at a field that is not FRIA? The document is QR coded on the back of the membership card. Flying planes and drones under 250 grams do not need RID.

Tumu

Lori Kashaki of Tumu, which is a non-profit organization for free tech and design education. They will be visiting the field. Scott has communicated with her. Dates: July 15th and July 17th.

Tops, Electric, Internet

Many tables have been repaired. There are 3 -4 left. Culley has been helping. He is going to replace the power inverter with a 10K unit because the fuse popped. He is also improving the internet.

Donations

A longtime member that has passed that had a whole bunch of kits to donate to the club by Glen. Scott will organize pick up this month. Also, there were donation from RC Tray Man that can be put together to sell.

Website

Bert oversees website updates. He asked if anything needs attention. It is reported that the calendar needs attention.

MEETING MINUTES

Membership, Celeste Young-Ramos

We currently have 197 members with 7 new 1st time members for the month.

Field Maintenance - Celeste Young-Ramos

We have been having monthly clean up meetings. Our next date is 3rd Friday of the month. It will be July 11th. We need to start working more on the crack and grass growing on the runways. Paul has been waking weeds and spraying, but the cracks need sealed. There was discussion about getting an edger. We agreed to try the weed whacker first. Lawn needs done again. We discussed using an outside gardener to help with some of the weed trimming. Celeste will talk to Jaime from the soft ball field. He came and graded the drone field for free. Scott must make repairs to the lawn mower. Attendees: Scott Ramos, Celeste Young-Ramos, Paul Parker, Terry Lamb, and Mario Sweet.

Training

Need Federico to get proof of AMA. Celeste spoke with him.

Meeting adjourned 7:30 pm.

RADIO CONTROL FLIGHT RULES

APOLLO XI FIELD

1. All pilots must fly from one of the designated pilot stands.
2. The frequency board will be used at all times and pilots must post their frequency usage with a card or I.D. that contains their name or picture I.D.
3. Open flying is restricted during scheduled events.
4. No takeoffs and landings from the pit area, taxi-ways, or grass.
5. 250 feet maximum flying altitude for South Wind, 100 feet when there is a North Wind
6. Take-off and landings to be in the same direction according to the wind.
7. Down-wind passes over the runway are prohibited when other aircraft are flying.
8. Some sort of fuel recovery system must be used when fueling planes to avoid spillage.
9. All pilots will follow taxiways directions as posted.
10. Pilots will call out their intentions (landing, take- off, etc) and clear the runway quickly.
11. There shall be no flying during facility mowing operations
12. Flying over the Golf course, access roads or public roads is prohibited.
13. Each type of aircraft must fly and pit within the area designated on the map for that type of vehicle.

Fixed wing aircraft will have a standard left or right pattern depending on the wind. Failure to comply with these regulations may result in a citation, loss of flying privilege or both.

****Pilots please note, the Field is closed to open flying during all Valley Flyers Events. Pilots must check-in to participate. A valid VF Club membership and/or AMA membership is required.**

Become a member, visit valleyflyers.com for more information.
